andatech®

Andatech is Australia's leading provider of high-precision safety and wellness solutions, specialising in industry-standard breathalysers, drug testing equipment, and environmental health technologies.

We do more than supply hardware; we provide a comprehensive safety ecosystem. Our solutions are engineered to mitigate risk, protect assets, and ensure your organisation remains fully compliant with Australian Standards (AS3547:2019, Quality ISO 9001 , ISO 27001).

Certified Product — Australian Standard AS 3547

Certified System — Quality ISO 9001

COMPLIANCE ASSURANCE SERVICES — ISO 27001 INFORMATION SECURITY

ilac-MRA / NATA — Accredited for compliance with ISO/IEC 17025 - Calibration Accreditation No.: 20609

Our Core Expertise

Andalink Fleet Management

A proprietary cloud-based integration that allows safety managers to track testing data in real-time across multiple sites, ensuring 100% visibility.

Alcohol & Drug Testing Equipment

Industrial-grade precision delivering total, standards-compliant workplace safety screening to mitigate risk and ensure operational excellence.

Calibration & Support Service

Our dedicated Australian-based service centre ensures your equipment maintains peak precision through regular NATA-traceable calibration.

Why Partner with Andatech?

In an era of evolving workplace legislation, Andatech provides the peace of mind that comes with technical excellence. Our approach is Strategic, not Transactional. We work with your team to integrate testing protocols that reduce downtime, lower insurance liabilities, and, most importantly, save lives.
