

COMPREHENSIVE PUMP SOLUTIONS FOR THE OIL & GAS INDUSTRY

The Oil & Gas industry requires dependable pump systems and regular maintenance to ensure that their operations run smoothly and consistently, particularly in harsh environments with extreme conditions. We have extensive experience in providing the right pump solutions for oil and gas projects. Our team of engineers is capable of designing and manufacturing high-quality pumps, API pumps, and Fire Pump Skids suitable for petrochemical installations, refineries, the oilfield and pipeline industries, and both onshore and offshore pumping technologies. We offer solutions to all end-users who require pump solutions.

Our Services

- Heavy Duty Pump Packages
- Extensive Engineering Team
- In-house Design
- Fabrication Capabilities
- Project Management
- Commissioning & Testing
- Supply & Installation
- On-site Maintenance

- API 610 Centrifugal Pump
- API 676 Screw Pumps
- API 676 Rotary Lobe Pumps
- API 676 Helical Rotor Pumps
- API 675 Metering Pumps
- API 674 Plunger Pumps
- ANSI B73.1 Process Pumps
- Vertical Turbines

Product Range

- Fire Pumps (AS2941/NFPA20)
- Self Priming Pumps
- Submersible Pumps
- Split Case Pumps
- Peristaltic
- Dry Claw Compressors
- Dry Claw & Rotary Vane
- Vacuum Pumps

Our Brands Partners

We have partnered with leading pump manufacturers to provide a complete and diverse range of pump products. This allows our customers to access a comprehensive selection of pumps and valves at competitive prices and with rapid delivery times.

Range of Products

API 610 Centrifugal Pump

API 676 Screw Pumps

API 676 Rotary Lobe Pumps

API 676 Helical Rotor Pumps

Multiphase Pump System

API 674 Piston & Plunger Pumps

ANSI B73.1 Process Pumps

API 675 Metering Pumps

API 674 Process Pumps

Fire Pumps (AS2941/NFPA20)

Vertical Turbines

Submersible Pumps

Liquid Ring Vacuum Pumps

Dry Claw Compressors

CR Multistage Pump

Rotary Vane Vacuum Pumps
