

ANDROMEDA INDUSTRIES

"Your first choice in Lifting"

WIRE ROPE SLINGS AND REPURPOSED RUBBER MATTING

Company Introduction

Andromeda Industries is a locally Australian owned manufacturing company since 1972 that specialise in the manufacture of Plaited and Woven steel cables and lifting slings. Andromeda Industries repurpose used mining rubber conveyor belting into innovative rubber products

Commitment:

Andromeda Industries is committed to reducing our environmental footprint and supporting sustainable business practices, all while delivering the highest quality products that last.

By embracing these sustainable practices, we contribute to a circular economy, helping our clients meet environmental requirements all without compromising on quality and performance.

All of this is achieved whilst supporting our local regional community in Moonbi, NSW.

Capabilities

- A wide range of upcycled conveyor belt products which include Blast Mats, EnviroBelt and Heavy Load Safety Mats
- Andromeda Industries is the only manufacturer of Superflex Steel cable and sling
- Providing a highly flexible sling that has the strength and durability of steel with the flexibility of synthetic.
- LD Ferrule technology
- Testing facility up to 300t
- Swaging press capacity of 4200t capable of pressing 100mm cable.

Differentiators

- Design and manufacture lifting slings and strops produced from Superflex cable.
- Manufacturer of Plaited Wire Rope used in the construction of power lines.
- Repurposing used rubber conveyor belting.

Accreditations

- NATA Accredited
