

Capability Statement

01

Our Company

RC Construction (RCC) is a Supply Nation certified company established in early 2016 as a formwork and concrete specialist. The company has steadily grown to become a major contractor specialising in civil and structural construction.

RCC is a specialist in the resource, rail, defence, infrastructure and energy sectors.

Our reputable management team have over 45 years of experience successfully delivering civil projects in Australia. We continue to direct our combined knowledge and experience to provide our clients with a safe and budget-driven professional service.

The goal at RCC is to safely deliver projects to the highest standards whilst surpassing our clients' expectations.

Our motivated team led by experienced project managers and senior project engineers, together with our skilled crew, pride themselves on being both reliable and efficient in our operations. Delivering the most complex projects in an efficient manner.

Our "hands-on" management team allows us to gain a competitive commercial edge over other contractors, providing increased confidence in knowing your project is being managed and executed with flexibility, accuracy and with your budget in mind.

All members of our team have a background in the resource and civil construction sectors further underpinning our understanding of the stringent health, safety and environmental protocols required to ensure "everyone goes home safely" every day. Our ongoing safety record and development of safety systems reinforces our commitment to our employees and clients.

RCC is a proud subsidiary of DDR Australia Pty Ltd (DDR). DDR is a majority Aboriginal-owned, Supply Nation certified contracting and project management business delivering engineering, construction and maintenance projects across Australia.

02

Our Capabilities

RC Construction are a majority owned Aboriginal Business, ISO and MRWA B1 accredited, multi-disciplined construction company specialising in a wide variety of “competitively priced” construction services.

The management team have experience in the construction of structural foundations, in-situ wharfs, primary and secondary crushers, retaining walls, launch bridges, main roads infrastructure, fuel farms, water management and pre-cast structures.

A background in the delivery of lump sum projects has cultivated a proactive approach to solving construction problems in advance, ensuring risks are mitigated and managed.

We are capable of the following civil & construction services:

Civil

- Bulk earthworks up to 100,000m³
- Detailed earthworks, backfill and compaction
- HDPE Liner
- Trenching for services up to 40km
- Auger footings

03

HSEQ

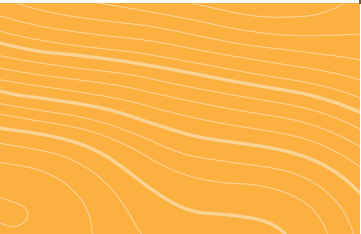

RC Construction is committed to delivering all projects under our integrated health, safety and quality management system which compiles with current occupational safety and health legislation in Australia.

We are certified by Compass Assurance Systems to the following management systems, standards and guidelines:

- ISO 9001:2015 Quality Management Systems
- ISO 45001:2018 Occupational Health And Safety Management Systems
- ISO 14001:2015 Environmental Management Systems

RCC ensures full traceability through the use of our ERP system. The system allows RCC to connect all our people, software, and data on one platform—so everyone on our projects has access to everything they need.

RCC recognises our people are integral to our success and are our greatest assets. We take a proactive approach to safety, health and environment at all levels, ensuring the safety and wellbeing of our people.

04 Local Engagement

Community Engagement

RCC is committed to making meaningful contributions to the local community in which we operate, including supporting local Aboriginal and Torres Strait Islander people through meaningful employment opportunities, support to local businesses and sponsorship of local sporting teams and charities.

We recognise and respect the Traditional Owners of the land on which we work and acknowledge the Aboriginal and Torres Strait Islander people as the continuing Custodians of this Country.

Training & Development

RCC recognises our people are integral to our success and are our greatest assets. We take a proactive approach in the development of our employees' career path. Our experienced and supportive management team is dedicated to providing development and growth opportunities through a range of apprenticeships and traineeships, backed by a proven record of completed apprenticeships in the business.
