Solutions

Unique Group

Founded in 1993 with three employees – today, Unique Group employs over 600 people worldwide, including 200+ engineering specialists to provide innovative technology supporting the wider Oil and Gas, Renewables, Defense, Research, Offshore, and Medical industries.

With a local presence worldwide, Unique Group is strategically located across 11 countries, serving customers across the Middle East, Asia Pacific, Africa, Americas and Europe.

We offer products and services across the following divisions:

- Unmanned Survey Vessels
- Survey Equipment
- Diving + Life Support
- Buoyancy + Water Weights
- Lifting + Mooring
- Bespoke Engineering Solutions + Consulting

Our Research + Development

Unique Group's R&D department embodies the company's vision to be a front-runner in technology solutions. Our global team of engineers work tirelessly to spearhead advancements in Unmanned Surface Vessels (USVs), Survey Equipment as well as Diving + Life Support Solutions.

Our Solutions developed in-house, include:

- ~ Uni-Mesh, Radio Communication
- ~ Uni-Sheave, Cable Counting System
- ~ Uni-FlowX, Mass Flow Excavator
- ~ Uni-Lander, Drop Camera System
- ~ Uni-Heal, Hyperbaric Oxygen Treatment (HBOT) System

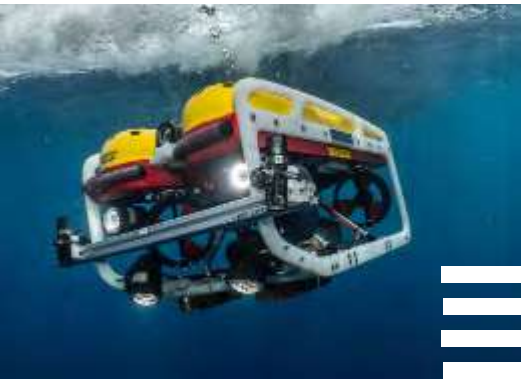

Survey Equipment

Technologically advanced solutions to support the offshore energy sector. Supply, installation, maintenance + training: all part of the Unique Group sales, service and rental package.

- Surface + Subsea Positioning
- ROV Tooling + Sensors
- Inertial Navigation Systems
- Hydrographic + Geophysical Solutions
- Oceanographic + Environmental Solutions
- NDT + Inspection Equipment
- Navigation Buoys + Lanterns
- Subsea + Merchant Marine Solutions

Our Survey Equipment Partners

Introducing Aquila Subsea The First Generative AI Chat Solution

Instant + Accurate Technical Support

Tired of sifting through manuals and spending hours troubleshooting? Aquila has you covered. Say goodbye to delays – our AI solution instantly responds to your technical queries, providing concise and accurate answers anytime and anywhere.

Cost-saving Through Increased Up-time

With Aquila's outstanding ability to answer technical questions for a wide range of survey equipment, it not only helps you save time for your operations team, but also immense savings in your cost.

10,000+ Survey Equipment Knowledge Base

Imagine having an extensive library of manuals, data sheets, and manufacturer information at your fingertips. Aquila's knowledge repository ensures that you receive the most relevant and up-to-date solutions, all with a few taps.

Powerful Training Tool For Your Team

Aquila not only helps solve technical problems for your operations team, but also supports in training your team - technically experienced or not. With this, you can hire less technically experienced personnel, which translates into savings.

Be among the first to experience the transformative potential of this game-changing technology.

Unmanned Surface Vessels

The Uni-USV range has robust, flexible systems, efficient mobilization and simplified logistics to suit clients in short/ long term hires, with integration, testing and optional operational support available for client convenience.

Applications include: coastal harbor monitoring, seabed mapping, data harvesting, oceanographic surveys, in-land survey and dredging, environmental monitoring, security, and surveillance.

Left to right : Uni-Max (Hybrid +Enduring), Uni-Pact (Compact + Versatile) and Uni-Mini (Lightweight + Economical)

Diving + Life Support

We manufacture customized industry leading diving and life support equipment designed to provide robust support to our clients' requirements.

- Surface Diving Systems
- Saturation Diving Systems (including DSV + HRF)
- General Diving Equipment
- Naval Diving + Life Support
- Uni-Heal Hyperbaric Oxygen Treatment (HBOT) System
- Specialized Boats

Launch and Recovery Systems (LARS)

Self Propelled Hyperbaric Lifeboat (SPHL)

HBOT

Buoyancy Solutions

Best-in-class airbags from our Seaflex™ products, are available for rent or sale across our global network. Our products have proof of subsea testing for safety-critical Air Lift Bag inverter lines and evidence of ABS Product Design Assessment.

- Air Lift Bags for diving and salvage operations
- Inflatable buoyancy bags for pipelaying and other shallow water operations
- SeaSerpent for cable laying

Water Weights® Load Testing

As pioneers of the Water Weights® proof load testing system, we have industry leading bags from our Water Weights® range available for rent or sale across our global network.

We are ISO 9001, ISO 14001 and OHSAS 18001 certified, and our equipment offers the highest level of compliance in the industry with relevant IMCA and LEEA guidelines.

- Water Weights® bags for testing cranes, davits and other structures
- Lifeboat and Gangway testing
- Platform, Bridge + Floor Test Bags
- Load measurement solutions

Lifting + Mooring

We offer a comprehensive range of industry-leading Lifting + Mooring products, which are distributed and serviced to the world's largest energy and marine operators who draw upon our expertise and packaged solutions to support their operational requirements.

- ~ Green Pin® Products
- ~ FBR Products
- ~ William Hackett Products
- ~ Hydraulic Winches
- ~ Equipment Recertification + Management

Bespoke Engineering Solutions + Consulting

Subsea Innovation, part of Unique Group, is a world leader in the design and build of bespoke technology and equipment for the global offshore energy markets.

Through innovative engineering practice and our safety-first culture, we provide reliable and robust solutions from feasibility and concept design to the delivery of complete turnkey packages.

With our dedicated team of skilled engineers, designers, and technicians, we aim to remain a recognised world leader in the design and manufacture of sophisticated engineering solutions.

Our solutions include the following

Engineering Consultancy

- Pre feed
- Feed
- Dynamic analysis
- Local Analysis
- CFD
- Installation analysis

Subsea Products / Projects

- J tube seals
- Sealing Hang off clamps
- Water-stop seals
- Environmental plugs
- Tie back clamps
- Recovery clamps
- Special Projects

EPRS solutions

- Sealing clamps
- Structural clamps
- Connectors
- Sleeve connectors
- Hot Taps Ts

Mission Equipment

- Handling equipment
- LARS systems
- Winches
- Skidding systems
- PLET handling systems
- Moon Pool Towers
- Special Projects

Renewables

- CPS bandage system
- Retrofit Dynamics
- As built analysis
- Special Projects

Why choose Unique Group?

Innovative custom solutions for the offshore energy sector.

Extensive stock worldwide for rental or purchase requirements.

High quality equipment designed and manufactured to global standards.

Risk reduction:
› Tested
› Proven
› Certified

Committed to environmentally-conscious operations.

24/7 customer support across the globe.
