

## UNIVERSAL RETRIEVAL CLAMP (URC)

The Universal Retrieval Clamp (URC) is our latest innovative wellhead recovery tool. Available in High Pressure or Low Pressure to latch onto the corresponding housing.

Manufactured in the U.K. to **ISO** and **API** accredited standards to ensure your full confidence for your operation.

Our cleverly engineered solutions minimise **risk** by mitigating direct hydraulics, reducing complexity along with safety and environmental issues.

Thanks to the simplistic **patented** design, our clamp does not require specialised technicians to operate and can be handled by any competent subsea technician.

### High Pressure (Self Weight: 918kg + Inserts)

- 13 5/8" Cameron (SWL: 80Te; M: 220kg)
- 18 3/4" Cameron (SWL: 150Te; M: 48kg)
- 18 3/4" National Sea King (SWL: 150Te; M: 84kg)
- 18 3/4" Vetco/Drill-Quip H4 (SWL: 130Te; M: 147kg)

### Low Pressure (Self Weigh: 1116kg + Inserts)

- 30" Cameron (SWL: 150Te; M: 0kg)
- 30" National Sea King (SWL: 150Te; M: 62kg)

Successful campaigns conducted in the North Sea and APAC with the following clients:

- Chevron Thailand Exploration and Production Ltd
- Exceed
- Serica
- Baker Hughes
- Mermaid Group
- Legasea

#### **Subsea Pressure Controls Ltd**

142 Sinclair Road, Orchard Towers  
Aberdeen, AB11 9PR.

**T:** +44 1224 494124

**E:** [info@subsea-pressurecontrols.com](mailto:info@subsea-pressurecontrols.com)

**W:** [www.subsea-pressurecontrols.com](http://www.subsea-pressurecontrols.com)

The perks and benefits of using our URC:

- **RATED LIFTING CAPACITY UP 150TE SWL (Insert Dependent)**
- **FULLY ROV OPERABLE**
- **INTERCHANGABLE INSERTS**
- **NO REQUIREMENT FOR HYDRAULICS**
- **PATENTED SELF-CLOSING TECHNOLOGY**
- **NOVEL AUTO-LOK SYSTEM**
- **FUNCTIONAL ON VARIOUS WELLHEAD AND CONDUCTOR CASINGS**
- **SUPPLIED WITH BS END 1492-2000+A1 2008 CERTIFIED ROUND POLYESTER SLING RIGGING COMPONENTS**
