MOST PREFERRED BARISTA ALMOND MILK

IN HOT & ICED LATTES

*by Specialty Roasters**

Made with Aussie almonds.

With a subtle nutty taste, our almond milk is Australian through and through. Baristas go nuts for it (literally). But we wouldn't 'bee' here if it wasn't for our tiny team members by our side. A crucial part of almond tree pollination process, our local growers care about bee health too. We look after our Alternative team-mates.
