ACTIVATED PROBIOTIC SHOT

This shot is incredibly refreshing, tasty, and an easy way to incorporate probiotics into your daily diet. It is crafted from three scientifically validated probiotic strains through carefully controlled fermentation. **It helps support:**

Gut health

Immunity

Overall wellbeing

SILVER AWARD WINNER

International Exhibition of Inventions, Geneva 2019

WHAT MAKES OUR PROBIOTIC DIFFERENT?

Delicately fermented with three species of scientifically supported and micro-encapsulated probiotics.

	BIO-E ACTIVATED PROBIOTIC SHOT	TYPICAL PROBIOTIC PRODUCTS
PROBIOTIC SPECIES	Clearly identifiable with specific strain information	Strain information may be presented at a more general level, listing only the genus and species, or using broader terms like
RESEARCH BACKED	Extensively researched and scientifically supported	May not provide which specific bacteria are included & how they can support wellbeing
VIABILITY	Micro-encapsulated, resistant to gastric acid, bile salts, and certain antibiotics, allowing	Protective technologies like micro-encapsulation may not always be
QUALITY CONTROL	Maintain consistent quality and genetic purity of the	Difficult to verify the quality and efficacy
POTENTIAL RISKS	Scientifically tested, safety is verified and documented	Without detailed strain information, it may be harder to assess the safety and suitability of the product
