

A passion for flavors since 1967

Our passion for flavors began in **1967** when our founder, **Luciano Rabboni**, started producing gelato flavorings on a small scale in a workshop set up in his father's garage in Scandiano, **Italy**. Building on this foundation, the company has **grown significantly** over the years to become one of the most prominent industrial names in the creation of **ingredients for the gelato, pastry, and beverage sectors** worldwide. This growth is rooted in the undeniable **quality and taste** that define our products, allowing us to establish a presence in more than **130 countries** through an extensive network of agents and **17 foreign branches**. To support this global reach, we operate **three production plants in Italy, the USA, and Colombia**, alongside **an Automated Logistics Centre in Arceto di Scandiano (Italy)** that stands out for its cutting-edge warehouses, boasting some of the most advanced technological, engineering, and IT know-how.

Our products

We produce semi-finished products for **gelato parlours, pastry shops and coffee shops**. We make quality ingredients that make the production process easier for the customer.

Gelato

Our Gelato range includes everything essential to achieving an excellent product: innovative bases, flavorful pastes, delicious toppings, and much more.

Pastry

Our extensive range features mixes for classic pastry bases, premium creams to enrich every dessert, and a variety of decorations to make each creation unique.

Beverage

Our beverage line includes highly versatile products to create refreshing drinks, cocktails, milkshakes, and other hot and cold beverages.

Our Certifications

Our objective is to produce and offer the highest-quality products that guarantee optimal results, while always accompanying social and environmental development. Our commitment in research and the use of advanced technology have allowed us to obtain the **most important and renowned certifications**.
