OUR SPECIALTY

From tea selection to production and sales, we strive for excellence at every stage to deliver our customers **premium, natural, and additive-free** tea products.

We maintain long-term collaborations with generations-old tea farms from Japan's renowned tea-producing regions including Uji, Kyoto; Yame, Shizuoka and Okazaki, Aichi. Supported by an extensive and reliable supply network, we offer full scalability—serving clients from cafés to major supermarket chains and large-scale manufacturers.

Our signature product lines are created in partnership with **licensed tea masters** each Shinsa (new tea) season in Japan. Together, we carefully select the highest-quality teas to meet the diverse needs of our international customers.

Supply Chain Management

We oversee the entire process, from picking and processing to transportation, temperature-controlled storage, and final sale.

Each batch is fully traceable, ensuring consistently high quality in every product.
