

CleanLIFE® Pro

PLASTIC FREE WIPES

Commercial hygiene

Stand HG33

thehygieneco.com.au/cleanlifepro

We manufacture plastic free wipes

Corey and Phil started the business because they believed commercial hygiene products could be made better and without leaving a plastic trail behind.

The Hygiene Co. is an Australian manufacturer of plastic free wipes. Not an importer. Not a reseller. **We make them here.**

Made in Australia
Locally manufactured

Biodegradable
Plastic free fibres

Worksite Ready
Convenient solutions

Skin Safe Formula
Gentle on skin

That belief is in our three brands:

Product range

CleanLIFE PRO was developed for commercial environments that operate at volume and are held to a standard.

Every product is tested. Every formula is proven. And every wet wipe is made with Australian purified water.

Bulk Rolls

For use with the CleanLIFE Pro dispenser unit.

Dry Rolls

35% more absorbent than standard market rolls.

Softpack

Includes wall-mounted unit.

Two formulas. One dispenser.

Both rolls are designed for high use environments and fit the CleanLIFE PRO dispenser unit. Choose the formula that fits the job.

vinegar, clean.

250pk

200 x 600mm

100% fermented vinegar with no preservatives. Tested against E.coli, Salmonella, Listeria, Pseudomonas aeruginosa, and S. Aureus.

Natural
100% fermented vinegar

Effective
6-log bacteria reduction

Safe
Preservative free & food safe

Eco
Plastic free, no microplastics

antibacterial wipes.

1000pk

150 x 150mm

A neutral antibacterial formula for continuous use. Effective across a broad range of surfaces and suitable where scent or formula sensitivity is a consideration.

info@thehygieneco.com.au 1800 960 948

Dispenser unit.

Dimensions
H920 x W320 mm

Mounting
Freestanding

Built for the kitchen floor.

The CleanLIFE PRO dispenser unit holds the Vinegar 250 and Antibacterial 1000 bulk rolls.

It is designed to sit where the work happens, easy to load, easy to clean, and built to take the conditions of a commercial kitchen.

No complicated installation.
Zero tools required to change the roll.

Compatible with:

info@thehygieneco.com.au 1800 960 948

A permanent hygiene station.

The vinegar softpack and wall-mounted unit give you a fixed wipe point wherever you need one. Entry points, service areas, and hand hygiene stations.

The softpack uses the same fermented vinegar formula as the bulk roll. It slots into the wall-mounted unit and stays there until the job is done.

Refillable. Compact. Straightforward to install.

vinegar, clean. 120pk 300 x 200mm

100% fermented vinegar with no preservatives. Tested against E.coli, Salmonella, Listeria, Pseudomonas aeruginosa, and S. Aureus.

Natural
100% fermented vinegar

Effective
6-log bacteria reduction

Safe
Preservative free & food safe

Eco
Plastic free, no microplastics

wall-mounted unit.

Dimensions
H150 x W245 x D125mm

Mounting
Wall fixed

Built to absorb more.

CleanLIFE PRO dry rolls are 35% more absorbent than standard rolls sold in the Australian market. That means fewer sheets per task, less product used per shift, and lower cost over time.

Available in white and blue to support colour coded hygiene protocols, which are standard practice in commercial food preparation environments. Microplastics free.

white roll.

General purpose. High absorbency.

Sheet count
85pk

Wipe dimensions
300 x 500mm

blue roll.

For designated use areas and colour coded zoning.

Sheet count
60pk

Wipe dimensions
200 x 500mm
