Say **GOODBYE** to **single-use plastics** and **HELLO** to **environmentally conscious** design. Urban Ethos is a proud market leader in truly **ECO-friendly** innovations and modern designs. **TakeOuts** is our latest breakthrough range, made with **cooking oil waste**, which is processed into **bio-based polypropylene (PP)**.

Our **ECO-friendly TakeOuts** containers reduce reliance on fossil fuels, **reducing CO₂ emissions** while leaving a **smaller carbon footprint**.

Designed for **multi-use, convenience** and **sustainability**, **TakeOuts** are made to last and are fully recyclable at the end of their life.

By choosing this product, you're **supporting a true circular economy**.
