About Us

Gluten-Free World is an Australian-owned, dedicated gluten-free manufacturer based in Clayton, Victoria, supplying premium flours and functional baking blends to food service, retail and manufacturing partners nationwide.

Operating from a certified gluten-free facility, we deliver consistent performance, clean ingredient profiles and reliable supply — trusted by chefs, bakeries and food producers who refuse to compromise on taste or quality. Premium Ingredients. Uncompromised Taste. Because gluten-free should never mean second best

The Beginning

Established in 2022, Gluten Free World is picking up where FG Roberts left off. We are proudly endorsed by FG Roberts, and we thank them for being pioneers in the gluten free industry.

When FG Roberts made the decision to close their doors, Paul Brady, the founder/owner of Caffè Strada 2004-2024 and Strada Gluten Free Bakery 2011-2025, was front and centre of discussions. This began the transition of moving 89 years of history to a new site in Clayton.

At Gluten Free World, we have created a space where we not only celebrate past achievements, but where we fuse them together with modern ideas. Our dedicated gluten & wheat free facility in Clayton, Victoria, is also nut free, dairy free and egg free.

As well as manufacturing our own range of products, we are also able to offer contract blending.

Each batch is independently lab tested to ensure that our blends are, not only, of the highest quality, but are also safe. We also test bake every new batch to ensure that it passes our stringent quality control criteria. We are HACCP and Kosher certified and are also a proud member of the Coeliac Australia Endorsement program.
