PLEATPAK® – AN ELAG EXCLUSIVE

SUSTAINABLE AND FUNCTIONAL PACKAGING

ELAG is proud to introduce an award-winning paper packaging solution engineered to elevate the customer experience while driving cost savings for restaurant owners.

Why PleatPak?

If the burger matters, so does the packaging. The revolutionary PleatPak's proprietary pleated design keeps burgers portable and mess free. Burgers are wrapped perfectly, keeping them secure, warm, juicy and ready to eat. The precision-engineered pleats allow the right amount of moisture to escape and deliver a fresh, convenient and satisfying experience bite after bite.

The PleatPak achieves multiple benefits:

- **Hygienic design** - burger is fully contained for efficient service.
- **Cost effective** – PleatPaks offer direct and indirect savings. Fewer napkins are needed and less space is required for storage.
- **Minimise waste** – less material means savings in shipping, waste management and disposal, lowering costs and overall carbon footprint.
- **Reduced mess** – spills and drips are contained within the pleats, offering a portable, clean and enjoyable customer experience.
- **Freshness** – food quality is maintained as pleats allow just the right amount of moisture to escape so burgers stay warm without getting soggy.
- **Great marketing tool** – PleatPaks can be personalised to increase sales and enhance brand recognition.

PleatPak Sizing Guide		
Size	Diameter	Height
XXL	13cm	13cm

PAPER CUTLERY

Making a positive impact on our planet, our paper cutlery is 100% recyclable, 100% compostable and 100% biodegradable. Paper cutlery has a smoother mouth feel than wooden cutlery and is better for our environment.

Did you know?

- No chemicals are used during the cutlery manufacturing process.
- Paper cutlery has no taste or odour.
- Due to the smooth surface and nature of the material used, there is less risk of harm when using the product.
- Wooden cutlery is not recyclable and takes many months to fully decompose.

PREPACKS

PrePacks offer portion control – saving time and cutting costs. 100% paper cutlery, these innovative packs are designed to complement any meal on the go. The environmentally friendly choice – packs available with paper knife, fork and 2ply napkin or paper knife, fork, spoon and 2ply napkin.

Customise PrePacks to individual needs (minimum order quantities apply):

- Tailor the cutlery combination to suit any meal.
- Elevate business brand with personalised company logos.
- Stand out from the crowd with this unique marketing tool.

PAPER STRAWS

Durable and Sustainable

It's just a straw... right?

It's a blazing summer day. You've got a caramel frappuccino from that famous coffee chain, the sun is sparkling on the city skyline and life feels good – until... what's this? A soggy paper straw. Your perfect moment? Ruined. Now you're stuck with a drink you can't even enjoy.

Why ELAG Paper Straws?

We tested countless options to bring you the best. Made from responsibly sourced paper, our straws are 100% compostable, biodegradable and recyclable – without compromising strength.

They're tough enough for hot drinks, chilled frappes, fizzy beverages and even cocktails – holding firm in liquid for up to 10 hours.

Straight Straw: Classic, durable and sustainable. Available in black 6 x 200mm or 5 x 150mm cocktail size, plus individually wrapped white 8 x 200mm for hygienic service.

Flexible Straw: Bendable neck for adjustable sipping. Available in black 6 x 200mm.

With ELAG, you get a straw that lasts, a drink that stays perfect and a brand that stands for sustainability.

Code	Description	Straw Size	Units/Box
SS6200U	4ply Straw Standard Black Unwrapped	6 x 200mm	5000
