

# Your One-Stop Food Packaging Partner

**South Plastic Industry** is a HACCP, ISO & BRC A Grade certified food packaging Taiwan manufacturer. We dedicate to R&D and keep developing products complying to circular economy and sustainability. Our wide range of high-quality disposable food packaging products is available through diverse sales channels to meet various business needs.

## Custom Packaging Solutions

With over 40 years of experience, South Plastic Industry provides customized packaging solutions tailored to each brand. Our in-house team manages structural design, prototyping, mold fabrication, and mass production to ensure precision and reliable quality. By working closely with customers, we create packaging with tailored dimensions, practical layouts, refined structural details, optimized stacking, and brand-specific embossed logos. We also guide the development process through concept evaluation, 3D visualization, testing, and final refinement so each solution meets real market needs and aligns with the brand's goals.

# Certified Production, Trusted Quality

## Advancing Excellence in Every Process

With world-class production capabilities and internationally certified standards, SPI continually advances toward higher quality.

Our integrated workflow, in-house sheet extrusion, clean-room automated lines, and high-capacity output ensure stable and reliable performance. Supported by strong R&D, global certifications, and a comprehensive product portfolio, we deliver innovative and sustainable packaging solutions.

With flexible customization and rapid development, we support customer needs from concept to completion. SPI moves forward with excellence as our ongoing goal.

# What is respire™

## Breathing New Life into Plastics

respire™ — a name that speaks to renewal and hope. Inspired by the French word “**respire**,” meaning “**to breathe**,” this innovative product line represents a fresh breath of life for plastics. With a focus on renew, reuse, and recycle, respire™ embodies South Plastic’s (SPI) unwavering commitment to sustainability.

## Certified for a Sustainable Future

SPI offers SCS and GRS certified packaging that incorporates post-consumer recycled PET, reduces virgin material use and waste, reuses production scrap, and minimizes carbon footprint for sustainable and reliable food packaging solutions worldwide.

# Ultra Clear

## You Get What You See

SPI's **Ultra Clear PP** offers PET-like transparency with the benefits of recyclable, high-performance plastic. Its **anti-fog** properties ensure a clear view of food, while its eco-friendly design supports sustainability through easy recycling.

**Multi-Use & Convenient**

**Crystal Clear**

**Microwaveable**

**100% Recyclable**

**Light & Strong**

# Secure. SafetyPack<sup>®</sup> Sustainable.

Our patented **Safety Pack**<sup>®</sup> lock provides clear, **tamper-evident protection** without tear-off strips, shrink bands, or labels, enhancing security while reducing waste. Designed for convenience, it keeps products safe, secure, and easy to use. Our **PFAS-free, recyclable PET** packaging supports sustainability, and we offer customizable rPET options with adjustable PCR content for flexible, eco-conscious solutions.
