About Us

Our Legacy

Bringing the Flavours to You Since 1956

Avitri Spices Private Limited carries forward a spice legacy that began in 1956, rooted in direct farm sourcing from Karnataka's Western Ghats. Over decades, the Bhat family built deep relationships with growers and evolved from traditional trading into organised supply for India's leading food manufacturers.

Formalised as Avitri Spices in 2016, the business unified generations of expertise into a single, modern operation. Today, Avitri operates a HACCP-compliant facility in Bengaluru, supplying whole spices, ground spices, and blended masalas to FMCG brands, retailers, food processors and HoReCa customers.

By 2026, Avitri has expanded into international markets across Europe, North America, Australia, and the Pacific—combining heritage sourcing with contemporary processing.

Ganesh Bhat

Chairman

Why Avitri

HACCP & FSSAI Certified

Steam sterilization, sortex cleaning, full compliance with international and food safety standards

Customizable Solutions

Private label, bulk, and retail neupacks tailored to your requirements

Export-Ready Expertise

Complete support with international documentation, compliance, and logistics

Transparent Sourcing

Ethical farm partnerships built on traceability and sustainability

Your Trusted Spice Manufacturing Partner

Vision & Mission

→ Vision

Our vision is to build Avitri Spices into a globally respected spice partner rooted in heritage and driven by precision. We aim to connect farmers, food manufacturers, and consumers through transparent sourcing, consistent quality, and responsible growth. By combining decades of trade knowledge with modern processing, innovation, and international standards, we strive to deliver spices that perform reliably across markets. As we expand worldwide, our focus remains on long term partnerships, sustainable practices, and preserving the authenticity of flavour—bringing Indian spice expertise to the global food ecosystem.

Our Practices

Direct Farm & Trade Sourcing

We source directly from farms and through fair trade practices to ensure the highest quality and sustainable sourcing.

Low-Intervention Processing

Our minimal processing methods retain the natural aroma, flavor, and essential oils of the spices.

Batch-Wise Traceability & Reprocessing

Each batch is traceable and can be reprocessed if needed, ensuring complete accountability and quality control.

Controlled Storage & Inventory Discipline

We maintain optimal storage conditions and strict inventory management to preserve product freshness and safety.
