

Long Life Tien Trading Co., Ltd. & Meishan Camellia Oil Production Cooperative

We are the first cooperative in Taiwan dedicated to producing premium edible oils. In 2010, we established Long Life Field International Trading Co., Ltd. to bring Taiwan's high-quality oils to the global market. In 2023, we founded Good Day Seeds Biotechnology Co., Ltd. and launched our new brand Co'day.

The name Co'day fully reflects our brand philosophy and business spirit.

Over the past decade, we have invested extensively in research, selecting high-yield Camellia varieties from more than forty cultivars and establishing contract-farming partnerships with local farmers to ensure quality from the source. Every seed we plant and every drop of oil we press represents a "good seed" cultivated together with our farmers—ultimately resulting in shared, fruitful achievements.

In addition, Co'day is partially derived from the Taiwanese pronunciation of "Camellia Oil." The full transliteration would be Co'day (yu), meaning "bitter tea oil." By preserving this linguistic element, the brand remains closely connected to Taiwan's cultural roots while enhancing its uniqueness and identity.

After more than a decade of dedication, our products have earned significant international recognition:

13 awards in 2023, and 7 gold medals in 2025—including 5 from Europe.

These honors affirm our commitment to producing 100% pure, additive-free, cold-pressed premium oils.
