TURN OUR PROFIT BACK TO LOCAL FARMERS, COMMUNITIES, AND SOCIETIES

BASICS!

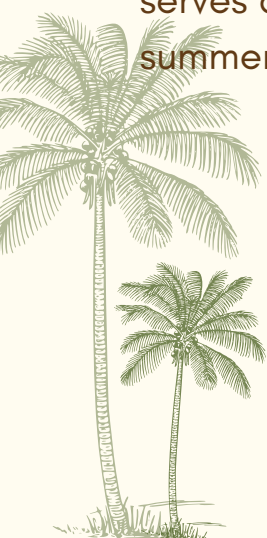

We are more than just coconut nectar!

With our intention, we directly work with local farmers to encourage sustainability in the “local” community, create selective quality and serve delicious daily with care - using traditional farm-level techniques, crafted almost entirely by hand to make “Every drop matters”.

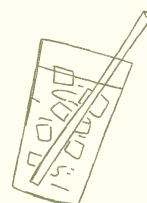

OUR COCONUT NECTAR JUICE

- Made only from pure coconut flower nectar (100%)
- No additives and preservatives or mixed with other sweeteners
- Nutrition information tested
- Harvested by local farmers and return to them
- GHP
- Coconut nectar juice is a beverage in summer as it helps in rehydration and serves as perfect refreshment after a hot summery day or exercise.

WAY TO DRINKS

- If you enjoy it cold, be sure to store it in the fridge or add some ice.
- Try adding it to sparkling water or use it in smoothies
- Mix it with other drinks such as coffee
