

Company Profile

Mellerio Package, being a lead supplier for eco-friendly food packaging industry, develop a new series of laminated packaging products.

We produce laminated flexible packaging bags for food, coffee, snack food, fruit juice, meat and cosmetics.

We develop recyclable and biodegradable packaging to achieve eco-friendly green packaging. The recyclable packaging uses single material for printing and laminating, which is with high barrier and can be recycle and reused. The biodegradable laminated packaging materials are degradable and compostable.

Mellerio is determined to explore different series of eco-friendly products in accordance to the international market demands with our one-stop service program.
