OVEREEM

Single Malt Whisky

Est. 2005

Born of promise.

Overeem Distillery is situated in the port city of Hobart, in south-eastern Tasmania, an island of unspoiled beauty, some 240 kilometers south of mainland Australia.

Decades ago, Casey Overeem, founder of Overeem Distillery and one of Tasmania's original whisky pioneers, made himself a promise - a promise to create a single malt whisky that he could enjoy alongside the great whiskies of the world.

It was this single pledge that guided the philosophy upon which Overeem was built.

Meticulous craftsmanship, patience and discipline, have resulted in Overeem Whisky being recognised as one of the most respected luxury whiskies in Australia.

OVEREEM

Where it all began.

- 1980's** Casey's first exposure to distilling was in Norway, which sparked his passion.
- 2005** Overeem Distillery was founded by Tasmanian whisky pioneer Casey Overeem, as one of the founding distilleries in Australia.
- 2012** After launching the distillery's first releases in 2012, Overeem Single Malt Whisky quickly gained popularity throughout the country, seeing releases regularly sell out within minutes.
- 2013** Overeem had won several national and international awards, gaining attention locally and globally.
- 2014** Casey Overeem retired and sold Overeem Distillery to a group of local investors.
- 2020** Casey's daughter Jane Overeem and her Husband Mark Sawford purchased Overeem Distillery, returning the brand to its founding family.
- 2026** Mark, Jane and a small team of industry professionals look boldly to the future with the vision of nurturing and growing this prominent and meaningful brand nationally, whilst creating a respected and well recognised brand globally.

OVEREEM

Production.

Overeem Whisky is meticulously made, with slow and measured production techniques that have been carried out since the distillery's inception in 2005.

A slow, patient and sensory driven approach to whisky creation through long fermentations, low and slow distillations, cool and long maturations, and non-chill filtration all speak to the quality of the final product where nothing is compromised, and no corners cut.

- **Maintaining consistent quality in every aspect of distillation and maturation is paramount at Overeem.**

OVEREEM

Maturation.

Overeem Whisky is matured in purpose-built cool temperature barrel stores, with little ventilation.

Quite often referred to as 'concrete bunkers' our barrel stores remain cool in temperature all year round, allowing the spirit to gently develop over time.

This stable maturation environment aids in producing a balanced and elegant Single Malt Whisky, creating the perfect harmony between spirit and cask.

Maturation takes place in heavily toasted and charred ex-sherry, ex-port and ex-bourbon oak casks, ranging from 100 to 500 litres in size.

DISTILLER STRENGTH 43% ABV

CASK STRENGTH 60% ABV

Bourbon Cask Matured

Aged in American oak ex-bourbon casks, it offers deep layers of complexity due to the heavy toast & char. Coconut & pineapple, with burnt vanilla & citrus, caramelised banana, marshmallows & toasted oak.

Port Cask Matured

Considered our ‘flagship’ expression, this whisky matured is elegant, refined, soft & approachable. It boasts favours of salted caramel & butterscotch and is the perfect introduction into our range.

Sherry Cask Matured

Aged in French Oak ex-sherry casks, this whisky offers notes of dark chocolate, chewy toffee, & stewed fruits that are wonderfully balanced with shaved almonds, marzipan, cinnamon & light spices.

Bourbon Cask Matured

Incredibly approachable for a whisky at this strength, this expression showcases charred pineapple, caramelised fruits, vanilla, spice & citrus notes. A crowd favourite.

Port Cask Matured

Our most awarded single malt whisky. Sweet layers of caramel, milk chocolate, creme brulee & butterscotch make way for Christmas pudding & brandy snaps. A whisky worth savouring.

Sherry Cask Matured

Rich dark chocolate, dried fruits, plums & raisins, share the palate with hazelnuts, nutmeg & cinnamon with a deliciously long, spicy finish. Viscous, bold, intricate & incredibly well-balanced.

Single Cask Single Malt.

Released almost exclusively as single cask, every 700mL bottle of Overeem Whisky can be identified by its unique cask and bottle number to ensure its authenticity. Every bottle of Overeem Whisky is meticulously hand-crafted with patience and precision in a unique process to produce an exceptionally delicate and refined whisky.

Why Overeem Distillery?

Uniquely Tasmanian

Overeem Whisky is made from the finest ingredients Tasmania has to offer, with barley to rival the best in the world and water recognised as the cleanest. Tasmania is a pristine environment where nature in her magnificence provides us with an abundance of soft, pure water from the slopes of Mount Wellington, premium Tasmanian barley and a perfect climate for the production of our Single Malt Whisky.

Meticulously Made

Overeem Whisky is meticulously made, with slow and measured production techniques that have been carried out since our inception. A slow, patient and sensory-driven approach to whisky creation through long fermentations, low and slow distillations, cool and long maturations, and non-chill filtration all speak to the quality of the final product where nothing is compromised, and no corners cut.

Careful Maturation

Our whisky is matured in purpose-built cool-temperature barrel stores, with little ventilation. Our barrel stores remain cool in temperature all year round, allowing the spirit to gently develop over time. This stable maturation environment aids in producing a balanced and elegant Single Malt Whisky, creating the perfect harmony between spirit and cask. Maturation takes place in heavily toasted and charred ex-sherry, ex-port and ex-bourbon oak casks, ranging from 100 to 500 litres in size.
