WHY GHEE?

- ✓ Ghee is a wholesome, nourishing, and easily digestible alternative to butter and other cooking fats and oils.
- ✓ It has a long shelf life and doesn't require refrigeration.
- ✓ It has a high smoke point (485°F), which means it's suitable for various cooking styles, including frying, sautéing, and BBQing (it won't convert to harmful free radicals at high temperatures).
- ✓ Naturally rich in good fats and fat-soluble vitamins.
- ✓ It offers many health benefits, including boosting digestion, reducing inflammation, and strengthening immunity.
- ✓ As the impurities and milk solids are removed through clarification, it's suitable for lactose intolerant people and those on Keto or Paleo diets.
