VIETNAM CLEAN SEAFOOD CORPORATION

(VINA CLEANFOOD)

Vietnam Clean Seafood Corporation - VINA CLEANFOOD is the top, well - established shrimp processor and exporter in Vietnam. VINA CLEANFOOD is well regarded in the industry for producing a year - round supply of high quality product.

VINA CLEANFOOD processes and exports shrimps for retail and food service channels throughout North America, Japan, Europe and other regions around the world. It specializes in processing a variety of products including value - added product category (breaded, tempura, dumpling, marinated shrimps, etc), sushi, nobashi (PTO stretched), skewers, rings besides cooked and raw shrimps.

VINA CLEANFOOD is outdoing in the industry due to two primary advantages of sourcing raw material. First, we own large tracts of sustainably (A.S.C & B.A.P) certified shrimp farms with annual harvests of around 6,000 – 7,000

tons. The latter, we have the unique procurement system of the 100% direct purchase from farmers but no companies have done this system in Vietnam. Given the advantages, the freshness and safety of raw material are secured. This makes our products more delicious, more wholesome, safer and full of traceability. The steady, secure supply of raw material means VINA CLEANFOOD can assure its customers receive a year - round supply of high quality, fully traceable product.

In addition to shrimps, we are also producing a wide range of tilapia products. Our tilapia is responsibly sourced from ASC- and BAP-certified farms (about 2,000 tons up to market situation), where the fish are cultivated in high-salinity water environment under strict quality standard. It is this natural condition that results in firmer, more flavorful flesh, enhanced nutritional value, and a clean taste free from any muddy and algae-like odor.

OUR STRENGTHS:

- Competitive prices on high - quality, fully traceable products.
- B.A.P and A.S.C certified raw material from factory - owned farms.
- 100% vannamei raw material is bought directly from farmers without middle men.
- Appropriately arranged operation system for maximum cost and production efficiency.

OUR CORE VALUES:

- Satisfying all customers' requirements.
- Enhancing benefits to our customers, employees, farmers and community.

OUR MISSIONS:

- To deliver high -quality, safe and wholesome products with reasonable prices.
- To develop and maintain a long term, mutually beneficial business relationship with our customers, farmers and suppliers.
- To give satisfaction in all business relationships more and more.

OUR VISION:

To maintain a market- top positioned and well-regarded processor and exporter in the industry for producing a year round supply of high - quality product.

QUALITY CONTROL

- Every raw material lot is taken sample for testing antibiotics, banned chemicals and sensory (odor, taste and foreign matter).
- All finished product codes are daily sampled for testing antibiotics, banned chemicals and microbiology.
- Laboratory is installed modern equipments and ISO 17025 certified to get the testing results exactly.
- All antibiotics and chemicals are tested under LC/MS/MS method.
- All material lots and finished products have full traceability.
