

THREE BAYS

THE WORLD'S MOST
AWARDED MINERAL WATER

From a 600 million year old aquifer deep below the Mornington Peninsula outside Melbourne, Victoria, the world's most awarded mineral water emerges after an epic journey as Three Bays mineral water.

Rich in minerals, Three Bays Still has a creamy taste and silky smooth mouth feel. The Sparkling has a fine fizzy bubble without the typical acid finish. Both are deliciously easy to drink.

"The world's most awarded mineral water"

"22 essential minerals"

"Sweet & creamy"

"pH 8.3"

"Made in Victoria"

LIGHTLY CARBONATED

PERFECTLY STILL

TASTE THE DIFFERENCE

WHY THREE BAYS

- A premium Australian mineral water in glass bottles.
- Average Sales, 750 ml: 3 bottles per table of 4
- 22 essential minerals
- pH 8.3 due to naturally occurring alkaline minerals
- More Magnesium than Calcium
- Last fell as rain more than ten million years ago
- A 900-meter journey from the aquifer to the surface

PAIRING NOTES

STILL: creamy with a silky mouth feel

- Pairs with red wine as it enhances the palate, allowing the tannins to showcase.
- Pairs with red meat as the bicarbonate aids digestion.
- Pairs with whiskey as the high mineral content smooths the edges.
- Pairs with anything sweet ie: chocolate, desserts, pastries & cakes.

SPARKLING: a gentle fizz with a smooth finish.

- Pairs wonderfully with all seafood, particularly shellfish and salmon.
- Pairs well with aged cheeses.
- Excellent celebratory alternative to Champagne
- Mixer: a great alternative to sugary tonic when mixed with a botanical gin. You'll taste the gin itself, not an overly sweet mixer.
