Our STORY

Spice Route – Connecting the world with Ethnic Flavours

At Spice Route, we bridge the richness of India's natural bounty with the precision and quality expectations of global markets. Headquartered in Mumbai, our company is a leading exporter of premium Indian spices and herbs, Ayurvedic, Botanical ingredients, and functional powders to clients across the UK, EU, Australia, the Middle East, and CIS regions.

What sets us apart is our uncompromising commitment to quality, authenticity, and transparency. Every product that leaves our facility undergoes meticulous multi-stage inspection, batch-wise sampling, and rigorous analytical testing to ensure purity, potency, and compliance with international safety norms. We operate under a strict protocol of ethical sourcing, working closely with farmers, cooperatives,

and raw material suppliers who adhere to sustainable and responsible agricultural practices. Every consignment is supported by comprehensive documentation, including Certificates of Analysis (COA), microbiological reports and pesticide residue tests, all shared with clients before dispatch. This ensures complete peace of mind and confidence in every shipment we deliver.

Our

PORTFOLIO INCLUDES:

Whole and Ground Spices:

cardamom, cumin, nutmeg,
fennel, chilli, turmeric,
fenugreek

Ayurvedic roots and botanicals:

cardamom, cumin, nutmeg,
fennel, chilli, turmeric,
fenugreek

rose petals, spearmint,
lavender buds

Extract powders and high-potency formulations:

brahmi, shilajeet, gotukola,
licorice

Our STRENGTHS

Organic & Conventional Grades:

We take immense pride in offering both organic and conventional grade ingredients.

Certified Processing Facility:

All ingredients are processed in a certified facility, ensuring quality and safety.

Complete Traceability

End-to-end traceability to maintain transparency and accountability across the supply chain.

Strict Hygiene & Food Safety

Handled with strict hygiene and in compliance with international food safety standards

Just-in-Time (JIT) Inventory Strategy

We follow a JIT strategy, reducing overheads and ensuring timely deliveries.

Reliable Supply Chain & Long-term Relationships

Decades of experience and deep-rooted supplier relationships support our robust supply chain.

Our OFFERINGS

1

RETAIL BRAND – SPICE ROUTE

Our in-house retail brand 'Spice Route' is available in high-quality retail packs.

2

PRIVATE LABELLING SOLUTIONS

We offer private labelling for both retail and bulk clients, fully customized.

3

CUSTOM PACKAGING OPTIONS

Our state-of-the-art packaging unit handles everything from 5g to 5kg packs and bulk bags up to 50kg, tailored to your brand.

Why SPICE ROUTE?

Farm to Shelf Integration

Full control from sourcing to processing, packaging, and logistics.

Global Certifications

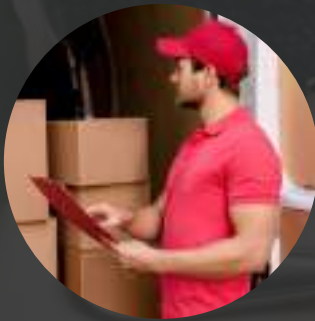

All consignments come with analytical reports, COAs, and safety certifications.

Ethical Sourcing

Long-standing relationships with growers who follow sustainable farming practices.

Just-in-Time Delivery

Our proximity to India's largest port enables flexible and timely global dispatch.

Custom Packaging & Labelling

Multiple SKUs and packaging types tailored for diverse market needs.

Market Intelligence Sharing

We provide real-time updates, price trends, and procurement strategy insights.

Post-Shipment Support

Regular cargo tracking, vessel updates, and dedicated customer service.

Sterilization & Irradiation

Available based on client specs to meet stringent food safety standards.

Export-Ready Container Stuffing

Safe, efficient, and cost-effective shipments with mixed-product loading.

Our PRODUCTS

Spices & Herbs

Rooted in India's rich spice heritage, our diverse range of spices and herbs is sourced from the finest origins across the country. We offer products in whole, powdered, cut, extract, and sterilized forms, tailored to meet the needs of food processors, blenders, retailers, and importers worldwide. Our technical capabilities ensure product consistency, flavor retention, and safety.

Ayurvedic & Botanicals

Our curated Ayurvedic and botanical product line includes traditional Indian medicinal herbs, exotic botanicals, and natural wellness ingredients used in nutraceuticals, teas, and holistic health applications. Available in tea-cut, powdered, extract, whole, and dried leaf forms, these products are processed with strict adherence to quality and hygiene standards to preserve their functional benefits and bioactive properties.

Whether it's Ashwagandha, Brahmi, Licorice, Tulsi, Neem, or superfoods like Acai Berry and Elderberry Extracts, we cater to wellness brands, natural product formulators, and herbal tea producers seeking purity and authenticity.

Our VISION

To be a globally respected source for pure, safe and ethically sourced ingredients, while continuously innovating to meet the evolving demands of the food, wellness and nutraceutical industries. At Spice Route, we go beyond being a supplier we are your one-stop destination for all Spice and Herbs, Botanical and Ayurvedic ingredient needs, backed by an unwavering commitment to quality, ethics and client success

Let's work
together to
deliver
excellence,
batch after
batch.

INFRASTRUCTURE

Precision, Purity & Performance at Every Step

At Spice Route, our infrastructure is built to deliver unmatched quality , efficiency, and reliability to clients worldwide. From whole spices to Ayurvedic extracts, every product is processed in an advanced facility that meets international standards.

Our Processing Units Include:

Seed Processing, Cutting, Cleaning & Powdering

Designed for grinding, cutting, cleaning , and sieving of herbs and spices while preserving natural properties and food-grade hygiene.

Sterilization Unit

Ensures microbial safety and compliance with global food safety norms for regions like the UK, EU, and Australia.

Extraction

Produces high-potency botanical & Ayurvedic extracts, available in powder and liquid forms for wellness, nutraceutical, and pharmaceutical use.

Dehydration, Spray & Freeze Drying

Transforms fresh produce into shelf-stable powders. Key offerings include beetroot, moringa, onion, lavender, and rose powders.

Refrigerated Warehouse

Temperature-controlled storage to maintain freshness and longevity of ingredients.

CERTIFICATIONS

In-House Quality Control Laboratories

Fully equipped QC labs uphold the highest safety & consistency standards.

We conduct:

-  Microbiological Testing
-  Pesticide Residue Analysis
-  Heavy Metal Screening
-  Physical Purity Assessments
-  Organoleptic Evaluations (taste, smell, appearance)

 Each batch is tested and certified, with COAs, compliance docs, and analytical reports provided before shipment for full transparency.

PACKAGING & LABELLING

Tailored Packaging Solutions with Technical Precision

At Spice Route, packaging is a critical element of our commitment to quality, safety, and brand enhancement. With extensive experience supplying to the EU, UK, and Oceania markets, we provide fully customized retail and bulk packaging solutions that meet stringent international regulations and resonate with consumers worldwide.

Deep Technical Expertise & Global Market Readiness

Our team possesses strong technical know-how and regulatory awareness for all the countries we serve. We have a comprehensive understanding of:

Micron and GSM thickness requirements for flexible packaging and label durability

Material layering structures to enhance barrier properties and extend shelf life

Advanced printing methods, including rotogravure, flexographic, digital, UV printing, and screen printing

Multilingual labeling standards and food contact regulations for global markets

We ensure that our packaging and labels comply with EU Food Contact norms, UK FSA, FSANZ, and other local packaging regulations, safeguarding both the consumer and your brand.

Material Options Printing

Our packaging and labeling are custom-designed using high-quality materials to suit various customer needs. These include:

- Metalized Films
- Transparent Films
- Opaque Films
- Kraft Paper Laminates

These materials are available for both flexible packaging and labels, ensuring a seamless, unified brand experience across all product formats.

Retail Packs (5g to 5kg)

We offer a wide range of flexible retail packaging options designed to meet both aesthetic and functional requirements:

Sachets (Single/Multi-serve)

We offer high quality sachets for single or multiple servings, available in custom serving sizes with screen printing, UV, Spot UV, lamination, metallic/special colors perfect for bold or detailed branding.

Stand-up Pouches (Zip-lock & Plain)

Premium resealable or disposable pouches with screen printing, UV Varnish, Spot UV printing, Lamination, metallic/special colors ideal for bold, intricate designs, with or without window with an option of vacuum sealing.

Printed Boxes

Enhance your product presentation with printed or non-printed metalized or clear pouches elegantly packed in custom printed boxes, Ideal for premium retail display or export ready packaging solutions.

Jars, PET bottles, & Glass Containers

We offer a premium range of bottles, jars and containers in plastic or glass, available in clear or colored material in varied designs and multiple sizes. Options include labeling, logo imprinting, designer styles and full customization to suit your brand.
