ABOUT DAKCO

At Dakco, passion for details and unwavering quality drive everything we do. Our slogan, “Quality for Brilliant Vision”, reflects our belief: that superior quality creates truly brilliant visual experiences and paves the way to achieving our ambitious vision.

Since 2007, Dakco has been dedicated to providing exceptional LED display solutions. Through years of dedicated innovation and hands-on experience, we manufacture LED displays that are both visually captivating and dependably robust for the world. Today, with a headquarters in Shenzhen, China and strategically located inventory in the USA, Dakco is able to guarantee on-time delivery for customers worldwide. This commitment to service has enabled us to install over 15,000 projects in over 90 countries and regions, achieving an annual revenue that surpasses USD 15 million.

Thermal Shock Test

Flatness Inspection

Salt Spray Test

Vibration Test

High & Low Temperature Test

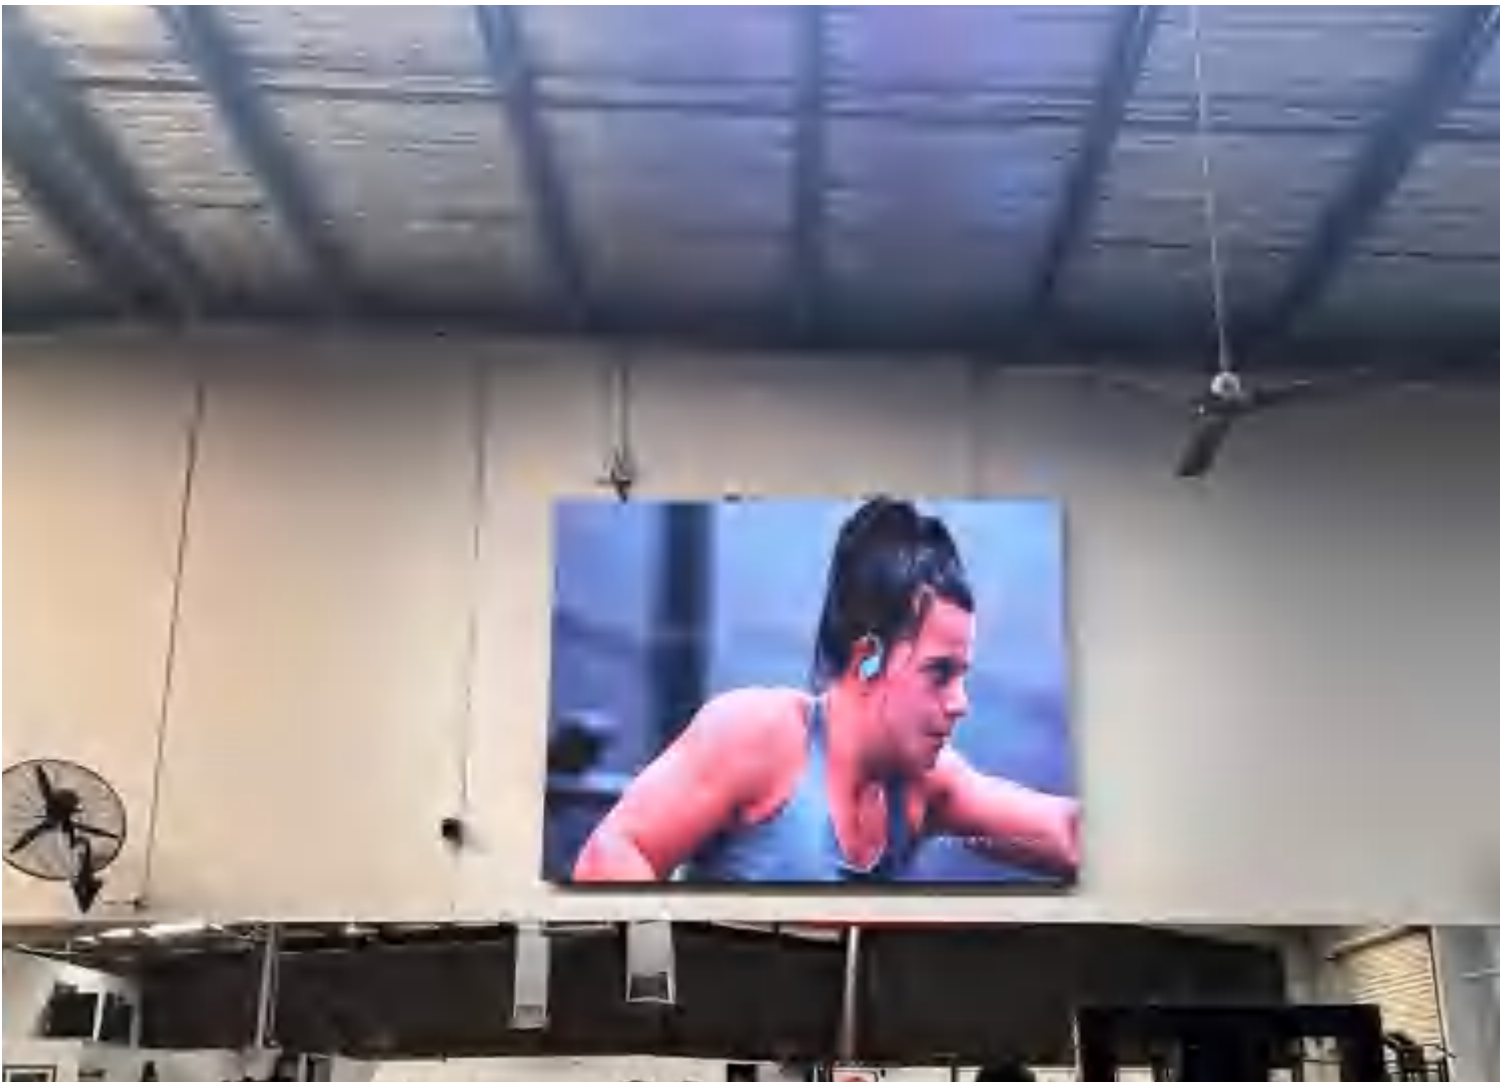

DAKCO PROJECTS

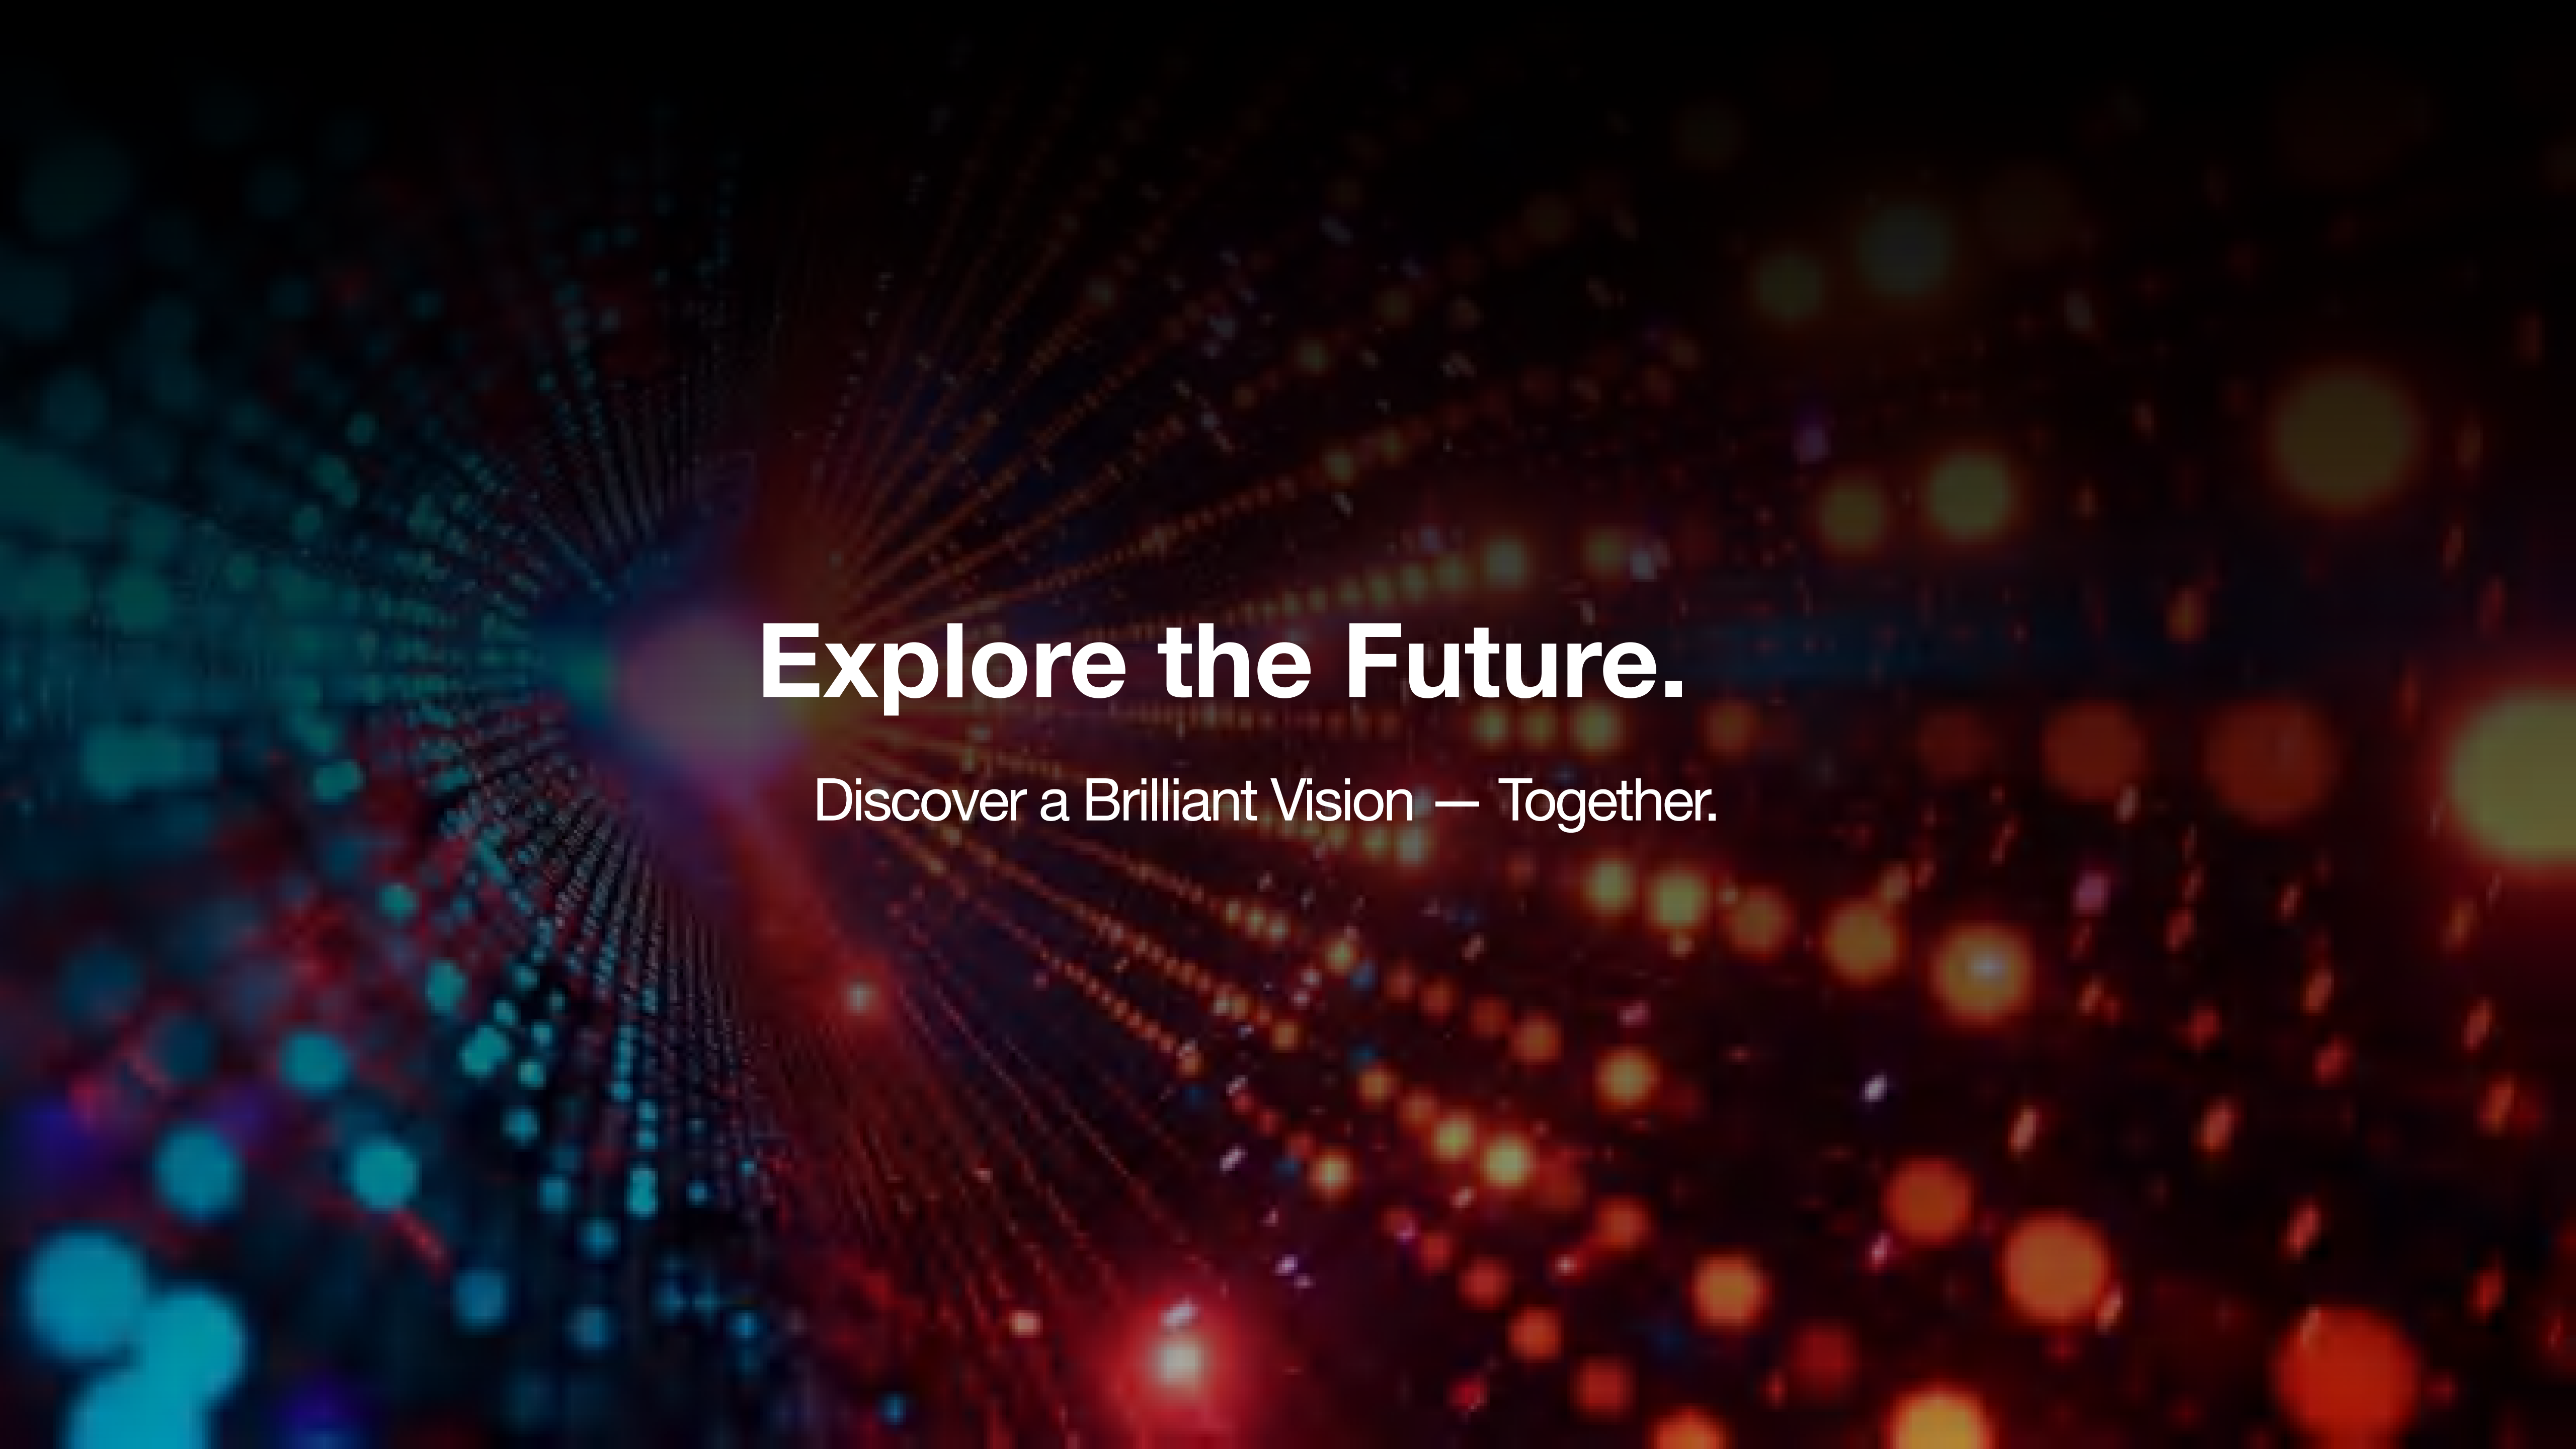

The background is a dark, abstract composition. On the left side, there is a dense, glowing blue structure that resembles a tunnel or a complex network of lines and nodes, receding into the distance. On the right side, there are numerous bright, out-of-focus red and orange circular spots, similar to distant stars or particles, scattered across the dark space. The overall effect is one of depth and futuristic exploration.

Explore the Future.

Discover a Brilliant Vision — Together.

Thank You!
