LED DISPLAY SOLUTIONS

01

Create With No Limits.

Indoor and outdoor LED displays for projects of every scale.

Taylor LEDs builds fine-pitch indoor walls, weatherproof outdoor screens, and lightweight rental panels. From Times Square billboards to concert touring stages. Red Dot Award winner 2025.

KEY PRODUCTS

- **Indoor LED Displays** Fine-pitch COB walls from 0.7mm. Front-serviceable. Up to 15,000:1 contrast.
- **Rental LED Panels** Carbon fibre and magnesium alloy frame. Under 11kg. Curve lock for staging.
- **Outdoor LED Displays** 4,500+ nit weatherproof screens. IP65 front, IP54 rear. CE, FCC, UL, TUV.
- **Custom Installations** Bespoke configurations built to project specification.

AVPro edge

SIGNAL DISTRIBUTION INFRASTRUCTURE

02

Every Signal. Every Time.

Signal distribution engineered in-house and backed by a 10-year warranty.

AVPro Edge designs, engineers, and manufactures its own signal distribution infrastructure. Full in-house ownership from compression to component selection. For installations of any size.

KEY PRODUCTS

- **MXNet AV-over-IP** Networked encoders and decoders over standard IT networks. 1G and 10G options.
- **Extenders** 8K fibre HDMI and USB extension. 444 series up to 18Gbps.
- **Matrix Switchers** Full audio routing, EDID management, and drivers for all major control systems.
- **Bullet Train Cables** Professional cables for data-intense, mission-critical runs.

AH ARTHUR HOLM

MOTORISED TECHNOLOGY FURNITURE

03

Invisible When Idle. Powerful When Needed.

Retractable monitors, mic lifts, and connectivity for premium meeting spaces.

Arthur Holm makes motorised technology furniture for boardrooms and council chambers. Monitors, mics, cameras, and speakers rise silently from the desk, then disappear. 30+ years, 27 patents, 20,000+ installations in 45+ countries.

KEY PRODUCTS

- **Dynamic Motorised Monitors** Retractable displays with silent soft-close and anti-glare glass.
- **Dynamic Speakers** Retractable 360-degree speakers with DSP processing.
- **DynamicTalk Mic Lifts** Motorised microphone concealment with LED status indicators.
- **DynamicShare** Software-free, multi-source video collaboration. BYOD ready.

DML LOUDSPEAKER TECHNOLOGY

04

Even Sound. Every Seat.

Distributed Mode Loudspeaker technology for even, room-filling sound in any space.

FlatPanel Audio uses Distributed Mode Loudspeaker (DML) technology for even, room-filling sound. A flat panel radiates diffused sound across 165 degrees. It clears hot spots, dead zones and harsh reflections in acoustically hard rooms. 5-year warranty or 6 years with LEA amplifiers.

KEY PRODUCTS

- **DML500 Loudspeaker** 123dB max SPL, 75Hz to 20kHz, 165-degree dispersion. Die-cast aluminium.
- **DML500A Architectural** 56mm deep for wall and ceiling integration. Minimal acoustic treatment.
- **LS212 / LS118 Subwoofers** Compact to high-output bass. Seamless crossover with DML panels.
- **LEA Professional Amplifiers** 25 models, 30 to 1,500 watts per channel with Dante networking.

Sound Control Technologies

CONFERENCE INFRASTRUCTURE

05

One Cable. Full Control.

Power, video, control, audio, and USB over a single CAT cable.

Sound Control Technologies simplifies conferencing infrastructure. Everything travels over one CAT cable, up to 100m on copper and 300m on fibre. Tested against Cisco, Poly, and Logitech. Certified compatibility out of the box.

KEY PRODUCTS

- **USB Camera Extension** USB 3.2 and USB 2.0 camera extension over a single CAT cable to 300 feet.
- **HDMI Camera Extension** 4K HDMI with power and control to 100m.
- **Table Integration Kits** BYOM and BYOD table connectivity. Cisco and Poly compatible.
- **Microphone Solutions** Extend codec microphones up to 300 feet over CAT cable.

WIRELESS COLLABORATION

06

Meetings Start In 7 Seconds.

One-click content sharing and conferencing. BYOD compatible. Zero IT overhead.

Barco ClickShare is wireless collaboration that actually gets used. Share content from any device with a single click. No cables or software downloads. Enterprise-grade secure. Certified for Microsoft Teams.

KEY PRODUCTS

- **ClickShare Hub** Wireless video conferencing with ultra-high-definition sharing. Core and Pro.
- **Video Bars** All-in-one devices with sharp video, clear audio, and wireless sharing built in.
- **ClickShare Conference** One-click join for hybrid rooms. Works with any UC platform.
- **ClickShare Present** Wireless presentation sharing. Plug-and-play, zero downloads.

IP CONTROL INTERFACES

07

Bridge Legacy Devices To IP.

Control IR, serial, relay, and sensor devices over the network.

Global Cache bridges legacy AV gear to modern IP control. Compact interfaces connect IR, serial, relay, and sensor devices over TCP/IP or WiFi. Built on open standards. Compatible with Crestron, Extron, AMX, Control4, RTI, Savant, and more.

KEY PRODUCTS

- **iTach IP2IR / WF2IR** IP-to-infrared gateway for any IR-controlled device. 3 output ports.
- **Global Connect** Modular multi-port controller for IR, serial, and relay. Up to 6 ports, PoE.
- **iTach IP2SL / WF2SL** IP-to-serial gateway for RS-232 control. Configurable baud and flow control.
- **Flex / Flex Link** Ultra-compact WiFi and IP gateway with IR, serial, relay, and sensor I/O.

IPTV AND DIGITAL SIGNAGE SOFTWARE

08

Master Your Content. Distribute Everywhere.

Broadcast-grade IPTV, live streaming, and signage software. On-premise or cloud.

StreamVue is a full broadcast studio in software. It captures, schedules, and distributes IPTV, live streaming, digital signage, and video on demand across unlimited endpoints. Deployed at QVC UK, Disney Italia, Ascot Racecourse, and RAC Arena Perth.

KEY PRODUCTS

- **IPTV Distribution** Live TV across any IP network. Multicast and unicast. EPG integration.
- **Digital Signage** Time and location-based content with drag-and-drop scheduling.
- **Live Streaming** Broadcast-quality mixing with multi-camera switching and low-latency encoding.
- **Video on Demand** Branded portals with adaptive bitrate streaming and content protection.

MEDIA PLAYERS AND CLOUD MANAGEMENT

09

Proven IP Video, Delivered At Scale.

Commercial 4K media players and cloud management for digital signage and enterprise video.

Amino has spent 25+ years at the forefront of IP video technology. Millions of screens deliver secure, low-latency video to 250+ customers across 100+ countries. Media players pair with the Orchestrate cloud platform for hands-off control of every deployed device.

KEY PRODUCTS

- **H200 / H200W Media Players** 4K UHD enterprise players on Android 14. Locked-down for always-on reliability.
- **Orchestrate Cloud Management** Zero-touch install, remote firmware updates, and live diagnostics across thousands of devices.

PRO DVX
ALWAYS ON

COMMERCIAL-GRADE ANDROID DISPLAYS

10

Built For 24/7. Always On.

Touchscreens, panel PCs, and digital signage for continuous commercial operation.

ProDVX builds commercial-grade Android and Windows displays designed to run around the clock. Industrial-rated components, fanless cooling, and PoE power over a single CAT cable. The ProMGR cloud manages entire fleets. 3-year warranty with optional 5-year ProSURANCE cover.

KEY PRODUCTS

- **Android Panel PCs** 7 to 32-inch touchscreen panels. PoE powered. Integrated NFC/RFID, camera, GPIO.
- **Meeting Room Panels** 10-inch PoE panels with Exchange, Google, and Microsoft 365 sync.
- **Digital Signage Displays** Ultra-wide commercial panels in 24, 28, and 37 inches. Rated 24/7.
- **Kiosk and Wayfinding** 15 to 22-inch interactive kiosks. Tempered glass, vandal-resistant.

Marshall

PROFESSIONAL CAMERAS

BROADCAST & PRO AV

11

Broadcast Quality. Compact Design.

PTZ, POV, and fixed cameras with SDI, HDMI, NDI, and IP outputs.

Marshall Electronics packs broadcast-quality imaging into compact cameras. The range covers PTZ, miniature POV, NDI, and USB models. From studio and live sports to lecture capture and courtrooms. 30+ years in professional video.

KEY PRODUCTS

- **PTZ Cameras** UHD and Full HD with 20x/30x optical zoom. SDI, HDMI, IP, NDI. PoE+ powered.
- **Compact HD/UHD Cameras** Broadcast-grade box cameras with interchangeable CS and C-mount lenses.
- **NDI Cameras** Native NDI|HX for IP-based production with simultaneous HDMI.
- **USB Cameras** Plug-and-play for UC and hybrid conferencing. Works with Teams, Zoom, Meet.
