LEDFUL — A Trusted LED Display Solutions Provider, empowering visual excellence worldwide. Founded in 2015 in Shenzhen, China, LEDFUL focuses on R&D, manufacturing, and global sales — powering over 11,000 projects across 116 countries.

As a leading brand, LEDFUL has proudly illuminated world-class events, 2018 UCL Final, 2020 Olympic, 2021 Euro LOL Final, 2022 World Cup, 2023 WTT, Fortune 500 NTT, 2023 Africa Cup, 2024 G7 Summit, 2025 Kuwait Ministry of Information, World Guinness Record.

Our advanced SMT production line includes 10 LED and 8 IC lines. LED screen production capacity is 6000 square meters per month. GOB production line capacity is 25,000 modules per month. Every screen undergoes rigorous aging for 72 hours before shipment to ensure optimal performance. Each module undergoes 16 standard operating procedures and 23 quality assurance checks across 1500 tests.

LEDFUL's displays are at the forefront of a rapidly evolving LED display market, which is experiencing significant growth and diversification across various applications such as Commercial Display, Sports, Data Visualization, Rental & Staging, Virtual Production, Retail, DOOH, and Consumption. We bring colorful screens to shopping malls, stages, stores, conference rooms, studios, digital billboards, stadiums, and houses of worship.

Behind every screen stands a team of dedicated engineers — ensuring precision, quality, installation, and caring after-sales service. Our experienced sales representative are dedicated to professionalism, high efficiency, and a caring approach, always listening to you and thinking ahead for you. In addition, we pay meticulous attention to every detail of your requirements.
