

EVERY ROOM. EVERY MEETING. ELEVATED.

From huddle rooms to boardrooms,
Jabra's video solutions **bring room for more**

Successful hybrid meetings shouldn't depend on the size of the room. But when every space has a different video solution, the quality ends up varying too.

Jabra's complete end-to-end video portfolio makes every space a great meeting place. It brings professional audio, wide-angle views and intelligent video to every size and shape of room, so everyone feels seen, heard and included.

And with easy setup and secure remote management, it's just as seamless for IT teams as it is for the people in the meeting.

Because when it comes to collaboration, there's always room for more.

KEY FEATURES

- + **A solution for every room size**
Small room, medium room or large room, there's a Jabra video solution designed for it. Choose simple, all-in-one devices for smaller rooms, or flexible, expandable systems for larger spaces. We've got you covered.
- + **Premium, inclusive video**
High-resolution, wide-angle cameras capture the whole room in high resolution, so whether there are two people or twenty-two, every face is clearly visible.
- + **Unmatched Jabra audio**
Room-filling sound and crystal-clear voices, powered by intelligent microphones, speakers, and noise-cancelling technology.
- + **More natural meeting experiences**
Intelligent speaker tracking and framing follow the flow of the conversation, making remote collaboration feel closer to real life.
- + **Fast, simple setup**
Zero programming required, even in large rooms. Quick deployment with clear guides and intuitive setup across all room types.
- + **Easy remote management**
Manage meeting devices remotely via Jabra Plus, keeping every room secure, up to date, and meeting-ready.

- + **Works the way you work**
Works with Microsoft Teams and Zoom, and includes Android, Windows, or BYOD options.
- + **Next-level security**
Backed by enterprise-grade security built on MDEP.
- + **Built for now and what's next**
One unified system that grows with you, from huddle spaces to large boardrooms, including modular options in larger rooms, so you can add extra components when you need them.

WHAT IT MEANS FOR YOUR BUSINESS

- + **More from every room** – Turn every size of space into a productive meeting place.
- + **More valuable meetings** – Reduce misunderstandings and make meetings more productive and inclusive.
- + **More time saved** – Simple setup and centralized management reduce IT headaches.
- + **More peace of mind** – Rest assured your conversations are protected at every step and in every room.
- + **More as you grow** – Start where you are and scale as you grow.

WHY TEAMS WILL LOVE IT

- + **Everyone feels seen and heard** – Wide-angle cameras and professional audio ensure inclusivity.
- + **Meetings feel more natural** – AI-powered features, such as framing and speaker tracking create more lifelike experiences for people joining remotely.
- + **Meetings just work** – Walk in, connect, and start collaborating without tech stress.
