

Sylvox

Feel Good, Live Outdoors.

We believe in the power of
the great outdoors, and that
technology can bring us closer.

Our Story.

Sylvox was born from Golden Young's vision to enhance well-being through technology. With decades of experience in R&D, Golden Young set out to create a brand that would make high-quality, immersive outdoor entertainment accessible to everyone. Guided by his belief in innovation and resilience, he founded Sylvox with a mission to bring relaxation, joy, and connection to everyday outdoor living.

Under Golden Young's leadership, Sylvox has become synonymous with advanced, durable technology that meets the unique demands of outdoor environments. Each product reflects his commitment to quality, accessibility, and sustainability, ensuring that Sylvox TVs elevate the outdoor experience while respecting the environment. By focusing on innovation and user well-being, Sylvox continues to inspire a new way to live and feel good outdoors.

NO.1

-  World's 1st Outdoor TV with ATSC 3.0 4K broadcast signal.
-  World's 1st 110-inch Outdoor TV featuring 5000-nit Helio QLED.

Global brand

Google TV licensed brand

Amazon supplier

Full-scenario TV pioneer

16 years of R&D excellence

How Do We Change Your Life?

Sylvox full-scenario TV breaks through the limitation that ordinary household TVs can only be used in a single scenario. According to different usage scenarios, Sylvox team takes into account the relationship between the changes in ambient temperature, humidity, light, and weather, and the viewing experience, as well as the consistency of product with home design, and creates exclusive products for each scenario from the structure, appearance, performance and material. Outdoor TVs, bathroom TVs, kitchen TVs, RV TVs, portable TVs... All of them are elaborately designed by Sylvox team based on careful consideration.
