AVCARE

Unmatched expertise & capability.

Trusted by Australia's best
organisations for over 30 years.

As a wholly **Australian-owned and operated** company, we take pride in our role as an employer and contributor to the Australian economy. We're committed to delivering an experience rooted in Australian values: honesty, integrity, mateship, fairness, and quality services.

Our owners are operationally involved in every regional Pro AV Solutions business unit, driving our dedication to excellence in standards, service levels, and outcomes for our customers.

We build lasting, mutually beneficial relationships and continuously enhance our products and services to meet Australian and global standards.

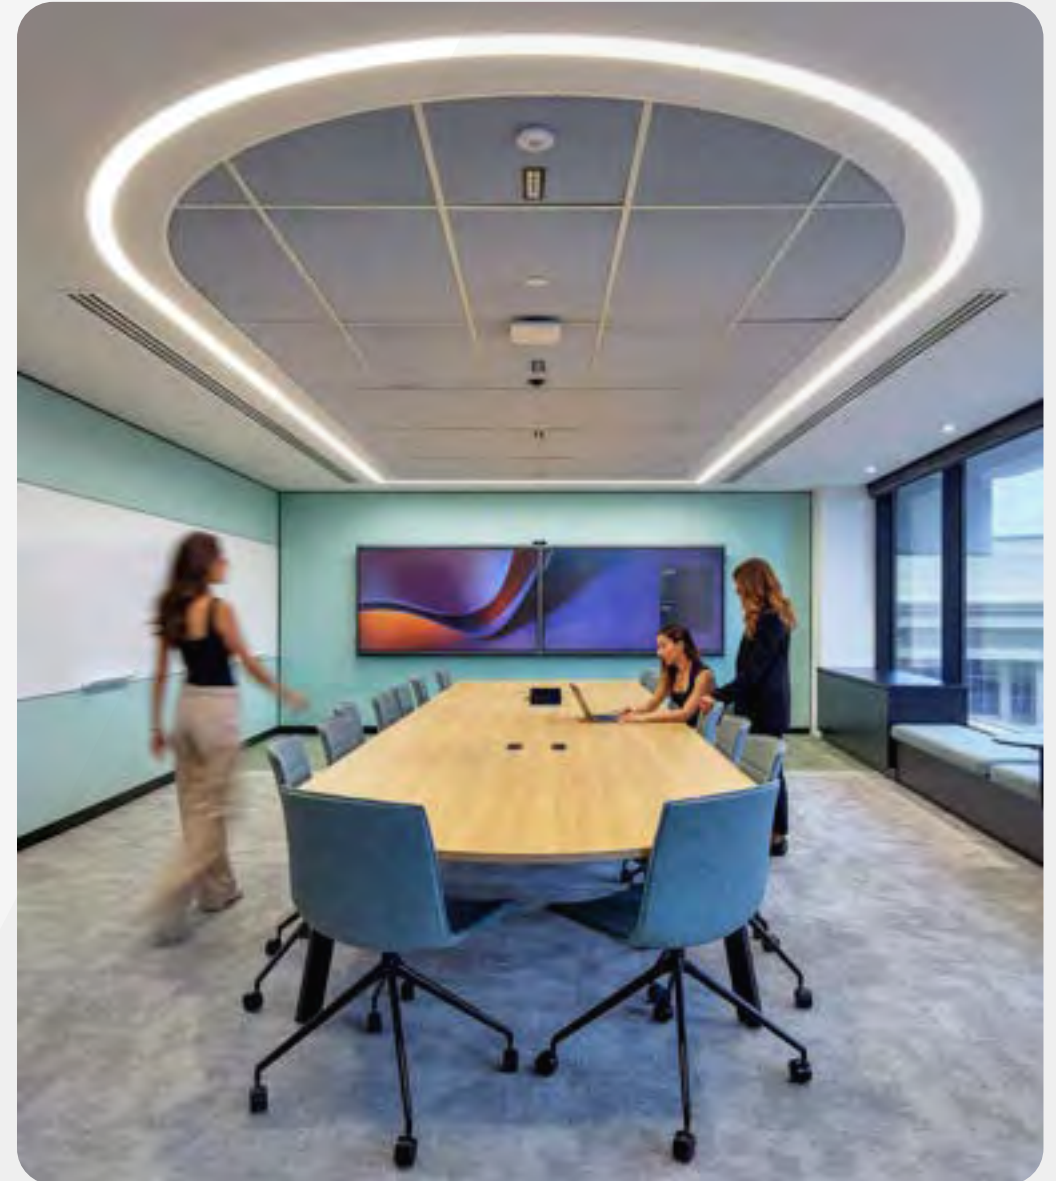

Pro AV Solutions has a superior nationwide presence across Australia and maintains a **uniform standard of excellence for all projects**, regardless of their geographic scale.

Whether your project is local, regional, or national, with a network of offices strategically placed throughout the country,

we ensure that each project receives the same exceptional level of service, expertise, and quality.

Every regional business unit within Pro AV Solutions is **resourced with expert staff across the entire business workflow**. We've invested in our teams Australia-wide, so whether it's pre-sales advice and strategy, project deployment, or after-sales service, we've the technical experts and infrastructure ready to support you wherever you are located.

Our structure empowers us to design, deploy, support, and manage projects and services independently, whilst being able to draw upon Australia's most extensive AV integration technical team when required.

We are Australia's largest specialist AV team.

With over 340 full-time team members, including over 200 technical and field staff, Pro AV Solutions has the largest workforce of industry-qualified AV integration specialists in Australia.

The Pro AV Solutions team's expertise and technical competencies are recognised through the extensive certifications held and experience in consistently delivering excellent outcomes on

Australia's most challenging and complex AV projects.

Our customers benefit from national innovation, knowledge sharing, problem-solving, and collaboration across our teams of passionate individuals.

Our **"Experience Excellence"** motto reflects our commitment to being passionate, agile, innovative, caring, and prioritising quality in everything we do.

Technology Solutions.

"Our teams thrive on designing, delivering and supporting integrated technology solutions that go beyond products."

Anthony Jeffcoat, Director

Technology Solutions.

Intelligent workplace & collaboration technology.

Our workplace technology solutions deliver seamless employee experience and exceptional customer value.

Transforming the way you connect, communicate and collaborate.

Personal Workspace Technology

Employee personal workplace experience. Display, camera, microphone, and peripherals.

Meeting Rooms & Huddle Spaces

Meeting room technology that just works. Reliable solutions to connect & collaborate with ease.

Microsoft Teams Rooms

Australia's leading MTR partner since 2020. We offer a complete range of Teams Room solutions.

Board Rooms

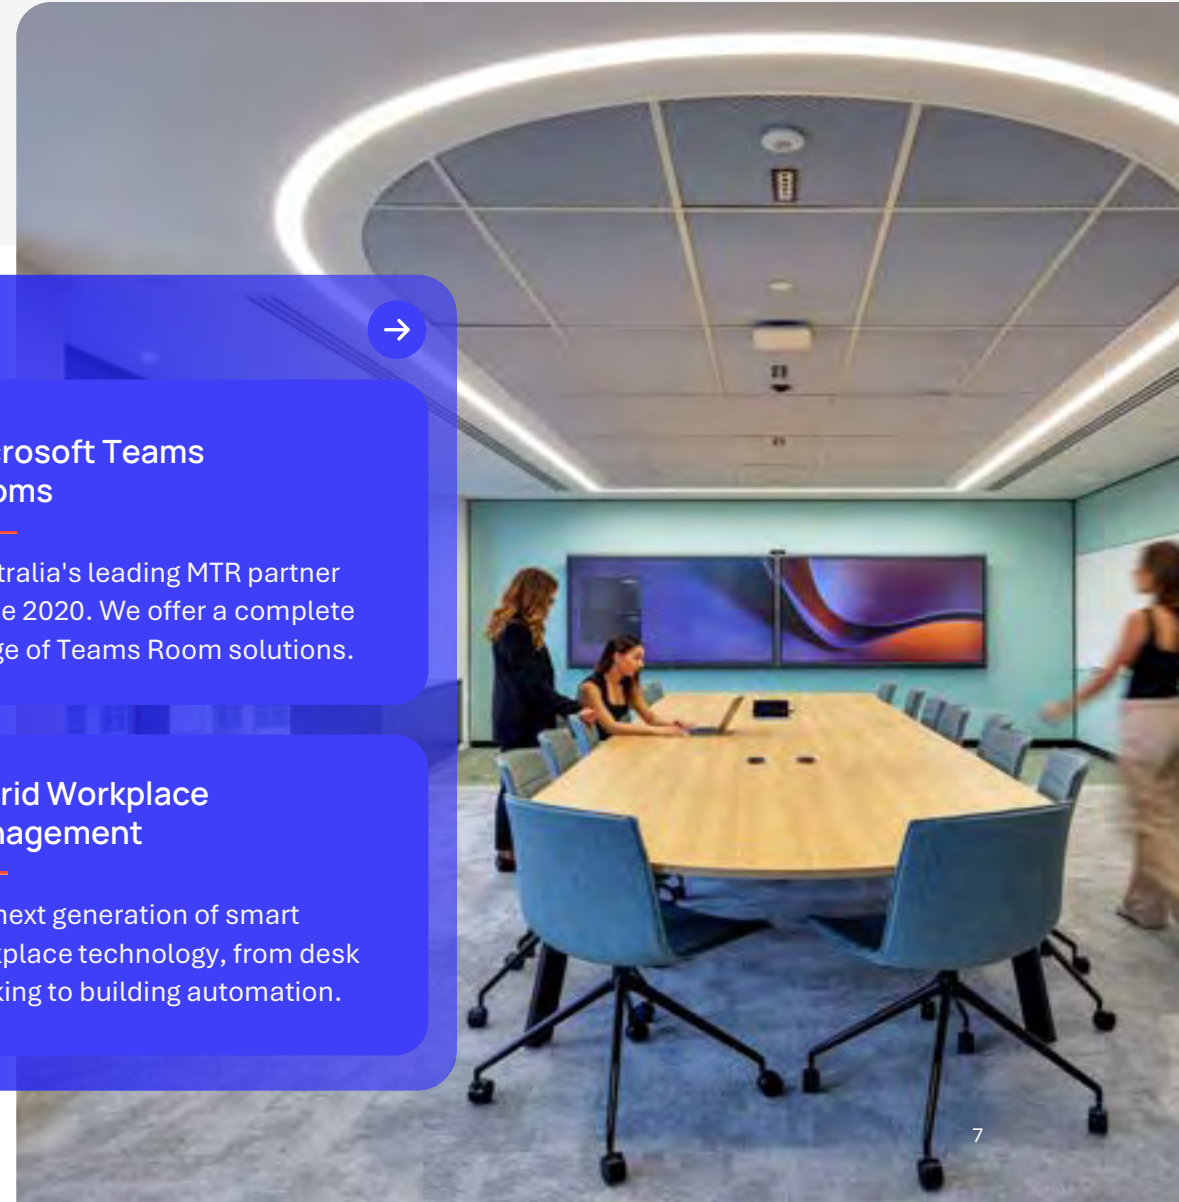

We specialise in integrated board rooms that create first class experiences for executive teams.

Bespoke Spaces

From training and flex spaces to auditoriums and VNOCs, we engineer seamless solutions.

Hybrid Workplace Management

The next generation of smart workplace technology, from desk booking to building automation.

"We partner with customers to reimagine their workplace for what's next—connecting people and technology through integrated solutions that enhance every experience."

Ben Daffy, Director

Technology Solutions.

AV Integration, engineered with precision.

Our AV systems are optimised for usability, security, and compliance, ensuring smooth operations and excellent reliability.

Empowering your operations with robust, secure technology systems.

Secure Networked AV

Networked audio and video systems for converged AV environments.

Command & Control Facilities

Seamless turnkey technology for operational environments, VNOC and mission critical spaces.

Learning & Training Environments

From simple classrooms to complex theatres, auditoriums and practical simulation rooms.

Audio Systems

Robust audio infrastructure, expertly designed and installed for value and clarity.

Displays & Projection

From simple displays to complex bespoke LED & projection designs.

Control Systems & Automation

Software development & programming that simplifies technology operation and Ux.

Technology Solutions.

Digital signage & visual experience.

Engage your audiences with immersive display solutions and interactive customer experiences.

LED Media Walls & Super Screens

Make any surface a super-sized digital canvas that brings your vision to life with impact.

Platforms & Infrastructure

Easy, secure content management and scheduling so your displays stay dynamic and on-brand.

Creative Content & Data Visualisation

From simple card templates to advanced interactive content and data-driven digital artwork.

What our customers say...

"The Pro AV Solutions team delivered exceptional outcomes for us at every step of the journey. They resolved an extremely complex set of requirements and challenges into a technical design that delivers simplicity and reliability, and most importantly an incredible experience for our executive team members using the space. Their project delivery was seamless, and customer support has been outstanding – we have certainly “experienced excellence”.

Malcolm S., National Property & Facilities Manager
