- ✓ Timesheet Approvals

### AUSTRALIA'S MOST POWERFUL ALL-IN-ONE SECURITY SOFTWARE

**Live Dashboard**  
Have complete transparency over your business, managing who is on site, security licence status, renewal reminders, leave application and more.

**Scheduling**  
A simple yet powerful scheduling system that handles, templating, overtime, shift offers, financials, black list and conflicts.

**Time and Attendance**  
Digital timesheet management allows for seamless review of time clock entries and digital timesheet submission against what was scheduled.

**Payroll**  
Complex EBA & Security Award interpreter, automated overtime calculations and allowances. Integrate your payroll system to remove human error and double handling.

**Invoicing**  
Automated invoice generation against customer charge structure. Integration with accounting system allows for seamless customer invoicing and reporting.

**Compliance**  
Automated security licence checks in every state in Australia running at 4am every day. Notification of expiring licence and ability to update and onboard via the app.

**Financials**  
Live calculations on schedule gives you an instant view of top line revenue and bottom line profitability. As well as profitability reporting to a shift level.

**Reports Engines**  
Generate comprehensive reports to keep track of operations, P&L's and HR reporting. Development of custom reports on request.

**Communication**  
Broadcast custom messages and reminders on the fly to your team. Publish rosters, shift changes and shift offers via email, sms and push notification.

**Customer Portal**  
Give your clients view only access to live rosters. Meet compliance by providing up to date licensing and certificate information + more.

**Form Builder**  
Easily create custom form templates that can be used for incident reporting and the general capture of information, like site audits.

**Mobile Apps**  
Dedicated staff and manager apps for both IOS and Android. Ability to scan QR or NFC tags via the app.

**E-Signatures**  
E-signatures allows for easy sign off and record keeping of site SOPs, company policies and more, to ensure you stay compliance.

**Mobile Patrols**  
Managing mobile patrols has never been easier with the ability to set up site information & requirements, build run sheets & capture alarm responses.

**Welfare Checks**  
Automated welfare checks to ensure guards safety. Escation process if no response. Detailed reporting to customers to ensure compliance.
