

PRÆSIDIAD

PRÆSIDIAD | PERIMETER SECURITY EXPERTS

A GLOBAL PERIMETER SECURITY SOLUTIONS GROUP

Delivering engineered perimeter protection and defensive systems for critical and high-risk environments worldwide.

PRÆSIDIAD is a global perimeter security solutions group focused on the design, manufacture and supply of perimeter protection and defensive infrastructure systems.

KEY CUSTOMERS

Government, defence, data centres and industrial customers operating in complex and risk-exposed environments.

Through a portfolio of leading specialist brands, PRÆSIDIAD combines **engineering capability, manufacturing scale and operational discipline** to deliver reliable, compliant and performance-driven solutions.

International manufacturing and operational footprint with factories in
Europe, USA, China and Africa

Established presence in regulated and **mission-critical markets worldwide**

Vertically integrated capabilities from **design to delivery**

Strong focus on quality systems, compliance, 3rd party
product testing and certification

Experienced international leadership teams with
sector expertise

150
years of
perimeter
security
experience

Focused brands. Complementary capabilities.

PRÆSIDIAD’s portfolio consists of two globally recognised operating companies, each addressing distinct but complementary security requirements.

B **BETAFENCE**

**High Security
perimeter solutions**

Betafence specialises in engineered, perimeter protection systems for critical infrastructure, utilities, industrial facilities and high-security sites.

CAPABILITIES INCLUDE

- High Security fencing and access control
- Proprietary and patented fencing technologies
- Engineered solutions for complex sites
- Solutions designed for performance, durability and long service life
- Support for specification-driven and regulated environments

HESCO

**Rapidly deployable
defensive systems**

HESCO manufactures and supplies the original earth filled, surface mounted barrier used extensively by defence, government and humanitarian organisations.

RECOGNISED FOR

- Battlefield proven system performance
- Rapid deployment capability
- Scalable solutions adaptable to a wide range of operational contexts
- Trusted by governments and global corporations to defend military deployments and secure critical infrastructure

Group Capabilities

- Global engineering and R&D approach
- Investment in product innovation
- Commitment to independent testing and certification
- Controlled manufacturing processes and quality assurance
- Portfolio of protected intellectual property

Serving critical infrastructure worldwide

PRÆSIDIAD solutions are developed and deployed across a range of mission-critical and high-consequence environments. Here are a small sample of customers who trust PRÆSIDIAD with their perimeter security.

Ballistic Resistant Delay Fence
Railway, South Africa

Corrosion Resistant Delay Fence
Border, Middle East

High Security Fence
Utility Sub Station, USA

Ballistic Proof Fence
Electricity Sub Station, USA

Crash Rated Fence
Military Base, Poland

Climb Resistant Fence
Border, USA

Flood Defence Barriers
Somerset, UK

Road Blocker
City Hall, USA

Our customers choose PRÆSIDIAD not only for our products, but for our ability to understand risk, engineer solutions and deliver reliably at scale.

Why PRÆSIDIAD

Proven performance in demanding environments

Innovation backed by patents and testing

Global support with local expertise

Long-term focus on safety, resilience and trust

Partner with PRÆSIDIAD to secure what matters most.
