FLUID CONTROL SYSTEMS

Strength in Partnerships

Connectivity and Product Evolution

Future Proof Your Success

Burkert Australia has partnered with Australian industry for over 40 years. Our focus is to help our customers by delivering superior service and reliable products when expected - every time.

Your trust in us as unique partners for Fluid Control Systems continues to inspire us to innovate. In Australia, we work with customers of all sizes and across all industries. That's the heart of what makes our jobs so rewarding. And from time to time, we are fortunate to encounter (and even participate in) work that is so compelling and inspiring, we know it is at the launch pad of greatness for Australian businesses.

In these rapidly changing times, we want to be closer to you and listen to your challenges, capturing insights about your likes and dislikes, and what you need to take your operations to new levels of efficiency and productivity. We are committed to finding innovative ways to lower your total cost of ownership and improve your asset utilisation.

At Burkert, we make ideas flow.

Cuong Vo
Director Region East Pacific

Product and service partner

We deliver the right products and services—fast. Our integrated approach, coupled with 24/7 eShop ordering, ensures efficient solutions and rapid response times.

Tailored systems partner

Facing a unique fluidic challenge? We're the customisation and development partner you need. Our expertise spans individual components to complete systems, providing the perfect solution to your problem.

Automation and digitalisation partner

We support our customers who are seeking automation and digitalisation solutions, from individual applications to entire systems.

Industries + Systems

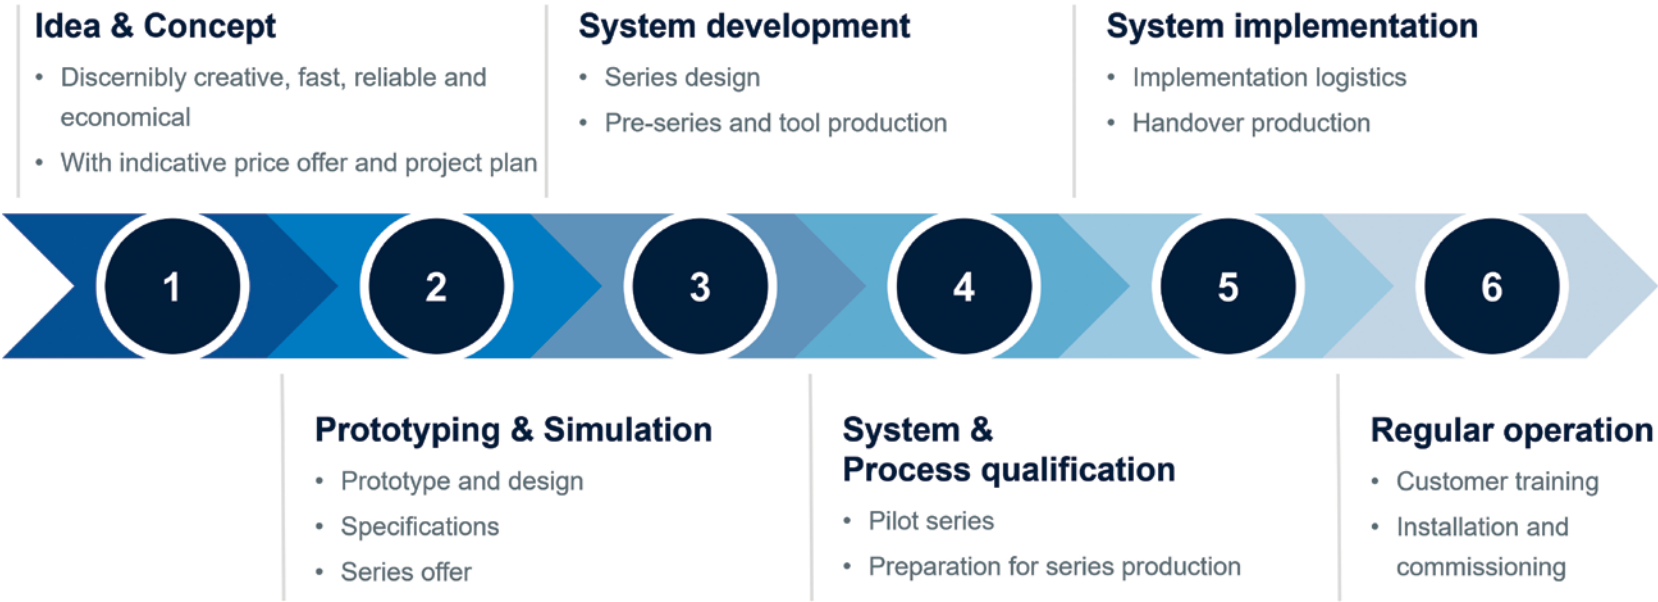

Our industry expertise

Burkert Australia leverages its expertise to deliver customised solutions across key industries including food and beverage, pharmaceuticals and biotechnology, lab and analytical sectors, new energy (such as hydrogen), water and wastewater, and mining, ensuring compliance and efficiency tailored to each sector’s unique needs.

Burkert delivers comprehensive, Smart System solutions across all industries we partner with. Our integrated approach combines world-class engineering, a vast range of standard products, and local expertise to optimise your processes. We handle the entire lifecycle, from concept to commissioning and beyond, providing reliable, cost-effective solutions tailored to your unique needs.

Customised solutions to meet your needs

Your preferred partners from concept to implementation

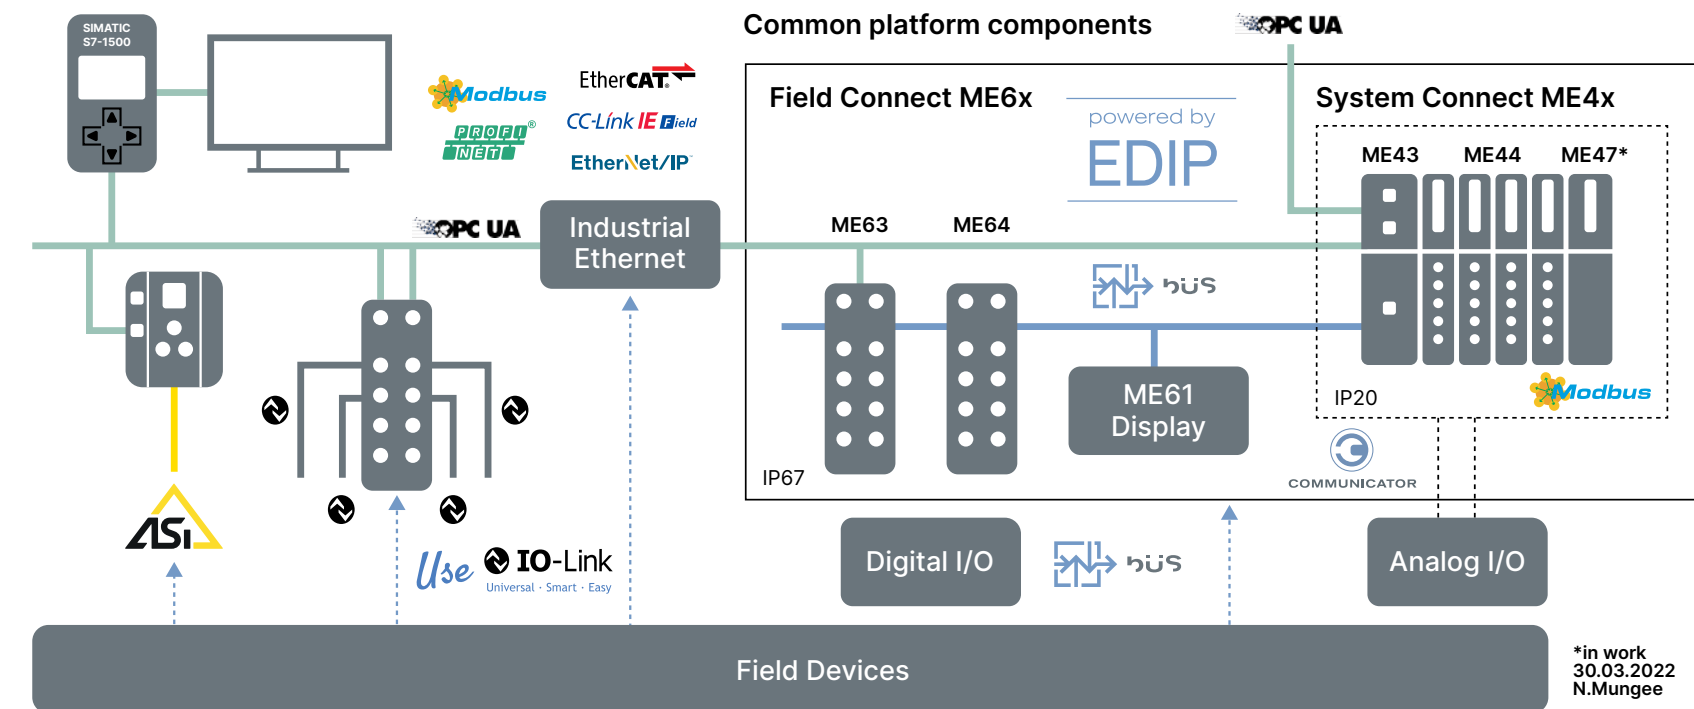

Leading the way in intelligent networking

Burkert leads the way in networked automation. With decades of experience in developing and implementing solutions by providing worldwide connectivity options that cater to our customers' requirements, regardless of plant processes, preferred setup or integration needs.

Driven by the movement of volume production and process automation throughout industries, we aim to simplify and provide peace of mind by offering reliability in both fit-for-purpose products and support.

Burkert provide a number of gateway and networked options for customers with adaptable and integrative product and technology. As world leaders in supporting core and essential industries, continual innovation is imperative to meet growing demands.

Locally Built, Globally Supported

We're proud to be part of the Burkert global family, bringing the strength of a worldwide network to your local challenges. We offer local manufacturing, localised expertise, and a dedicated in-house engineering team to build and support systems tailored to your needs. Benefit from our on-site service, maintenance, and support provided by our national team.
