

VITO Next: the “next” generation is green and smart

After the success of VITO, the **first compressor specifically designed for r-PET and PLA sector**, the “Next” generation is a high performing, reliable compressor built to be efficient, sustainable and connected, at every level.

VITO Next is an enhanced product in terms of reliability, longer lasting components, reduced maintenance costs and adaptability in harsher ambient conditions.

GREATER EFFICIENCY
The lowest specific consumption offered on the market

ENHANCED SUSTAINABILITY
Compactness (small footprint)
Low CO₂ emissions

DIGITAL CONNECTIVITY
with SIADMI4U remote monitoring platform

ENHANCED RELIABILITY
Minimum vibrations

MAXIMUM CONSTRUCTION FLEXIBILITY
Modularity of components (parts unification, simple upgrade)

MAXIMUM DESIGN FLEXIBILITY
According to design standards (CE, PED, ASME, EAC, GB, ISO)

SAFETY
Total operator protection

OPTIONS AVAILABLE
Energy audits
No-vibration skid
Filter silencer unit

COMPRESSED AIR QUALITY
Oil-free air guaranteed according to ISO 8573

LOW MAINTENANCE COSTS
Quick and simple interventions
Optimized maintenance ergonomics

CONTINUOUS PRODUCTION (AVAILABILITY)
8,000 h of continuous operation

EXTENDED LIFETIME
Longer lasting components

THE TECHNICAL DETAILS THAT MAKE THE DIFFERENCE

REDUCTION OF ENERGY CONSUMPTION

Cylinder fluid-dynamics optimization

Increase in heat exchange efficiency

INCREASED ROBUSTNESS

Improved piping fixing
Improved transmission unit protection

CONNECTIVITY

Designed for the connection to remote monitoring systems

NEW OPTIONS

Filter-silencer unit for restricted noise limit environments

No-vibrations skid for elevated floor installations

EXTENDED LIFETIME

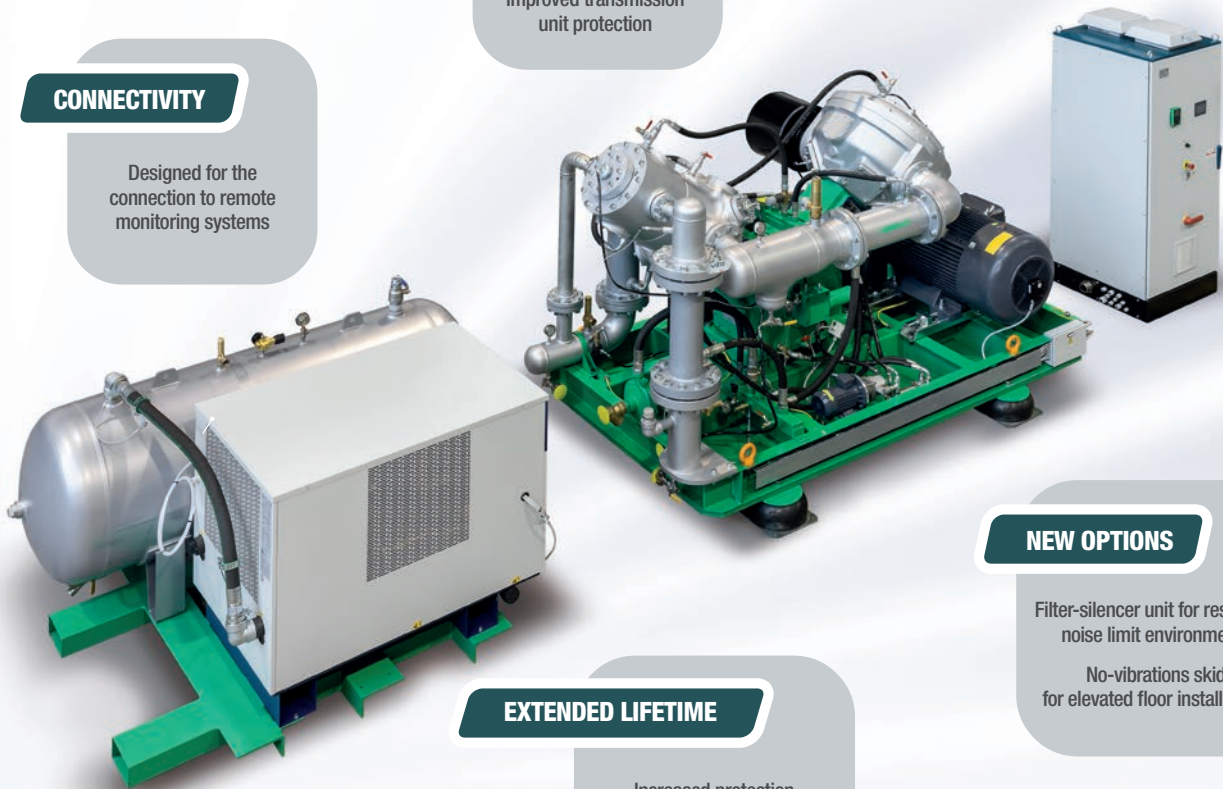

Increased protection of cylinders against corrosion

Optimal balance of the moving masses

GREATER EFFICIENCY

Improved condensate separation efficiency

Optimized cooling water distribution
