

# SUMMIT [FOOD MACHINERY]

## Practical solutions for food processing

SUMMIT MACHINERY offers proven food processing solutions for fruit, vegetables, potato, meat, cheese, ready meals and more. Our equipment improves efficiency, yield and product quality and consistency.

### We specialise in equipment for:

- Washing and dewatering
- Peeling and coring
- Cutting, dicing and slicing
- Shredding and grating
- Blending and mixing

Our solutions are designed to suit a wide range of applications, from fresh produce to prepared foods, small central kitchens to large processing facilities.
