

Technology Solutions for Australian Industry

ERP · CRM · Warehouse Management · eCommerce · Analytics · Integration & Automation

Connecting Australian businesses with the right technology — implemented by specialists who know your industry.

Who We Are

ThynkProcess is an Australian technology partner delivering SAP Business One ERP, Salesforce CRM, Warehouse Management, eCommerce, and Analytics solutions for mid-market businesses across Australia and New Zealand. With 150+ successful implementations, we combine deep industry knowledge with certified technical expertise — helping businesses in manufacturing, food & beverage, wholesale distribution, healthcare, construction, and retail connect their operations, automate their processes, and make better decisions faster.

Manufacturing & Engineering

SAP B1 + Beas Manufacturing for production planning, MRP, shop floor execution, costing, and quality management.

Food & Beverage

Batch traceability, FEFO/FIFO, recall management, recipe costing, and compliance reporting — built on SAP B1 and Produmex WMS.

Wholesale & Distribution

Inventory accuracy, order fulfilment, 3PL integration, and EDI with major retail chains — Coles, Woolworths, Bunnings.

Healthcare & Pharma

Serialisation, batch tracking, regulatory compliance, and real-time inventory management for healthcare suppliers and distributors.

Construction & Engineering

Project-based ERP with job costing, subcontractor management, asset tracking, and live project P&L; on SAP Business One.

Retail & eCommerce

B2B and B2C commerce via FocusPoint eCommerce connected to SAP B1 — live pricing, stock, and order management.

Agriculture & Agribusiness

Seasonal inventory, farm-to-shelf traceability, compliance reporting, and supply chain visibility for Australian agribusinesses.

Professional Services

Project management, resource scheduling, time & expense tracking, and real-time profitability reporting on SAP Business One.

Not-for-Profit / NDIS

Fund accounting, compliance reporting, and participant management for NDIS providers and care organisations on SAP B1.

Our Solutions

- SAP Business One ERP**
 The operational backbone of your business — connecting finance, inventory, sales, purchasing, and production in a single real-time platform.
- Produmex WMS & Scan**
 Warehouse management with RF-guided picking, FEFO/FIFO compliance, bin management, and mobile barcode scanning.
- FocusPoint eCommerce**
 B2B and B2C eCommerce connected to SAP B1 — live pricing, real-time stock, and automated order processing.
- Analytics & BI**
 Tableau, Power BI, and SAP Analytics Cloud — live dashboards connected to your SAP B1 data for every decision-maker.
- Beas Manufacturing**
 Advanced production planning, shop floor execution, OEE tracking, and costing — fully integrated with SAP B1 for manufacturers.
- Salesforce CRM**
 Connect your sales pipeline, customer service, and marketing to SAP B1 — a single view of every customer, every interaction.
- SAP BTP & SAP Build**
 Integration layer and low-code automation — connecting SAP B1 to any system and automating approval workflows.
- Strategic Advisory**
 ERP readiness, digital transformation strategy, process optimisation, change management, and Industry 5.0 advisory.

Our Approach

01 Assess We start with an honest assessment of your current systems, processes, and readiness — no obligation.	02 Design We design a solution tailored to your industry, your team, and your growth objectives.	03 Implement Certified consultants deliver on time and on budget — using a proven methodology across 150+ projects.	04 Support Support-based post-go-live support, system optimisation, and a dedicated consultant who knows your business.
