

The Real Pet Food Company

RPF is the pioneer in Australia and New Zealand in fresh pet nutrition. For over 30 Years they have championed a better way of caring for the health and wellbeing of pets. Today, new cooking techniques allow making food that is fresher, less processed, and even unprocessed and raw. Food Safety systems ensure the pet food is of the highest quality. Quality Assurance and Testing procedures begin from the moment ingredients are sourced from supplier and continue through packaging and beyond

As part of a high standard of quality in world class factories, RPF has partnered with Roxset Health & Safety Flooring to ensure all new facilities meet the highest standards of SQF, HACCP and Australia Standards AS5812.

Roxset has completed all floor coatings, upgrades and repairs for the Queensland and NSW Factories.
