

# *fluidity.* nonstop

## Local food & beverage experts, globally backed

In food and beverage, it's not just about moving product. It's about doing it safely, cleanly and reliably.

Kelair Pumps Australia, Superior Pump Technologies and System Cleaners cover the full picture – from product transfer and dosing, to process systems and open-plant cleaning. All three are part of the AxFlow Group.

Working together, they help you reduce downtime, protect product integrity and make washdown more efficient. One Group, focused on keeping every part of your process flowing the way it should.
