

Nizona Corporation Japan

We export Made-in-Japan products in various styles through our OEM and House Brand Businesses.

We also manufacture, import, export, and sell food ingredients and raw materials. Starting with collagen, we handle a wide range of products, from food and drink supplements to soft drinks and cosmetics, and meet the needs of the world.

OEM & Nizen with Japanese Premium Quality

We operate both OEM business and our own brands in the health and beauty field, providing comprehensive support from planning and development to manufacturing and export. In addition to developing Japan-made supplements and cosmetics with partner factories, we also offer in-house brands based on unique concepts. With a track record in over 25 countries, we deliver high-quality, safe, and trusted Japan-made products to customers worldwide
