

Conveyor Belts

Power Transmission Belts

We make your business move

Welcome to AMMEGA Australia

"We aspire to be the local partner of choice for sustainable belting solutions around the globe"

Ammega Australia is a member of the AMMEGA Group. A leading supplier and fabricator of process, conveyor and power transmission products offering a diverse range of belts and accessories for applications in virtually every industry.

We have production plants and warehouses in five states across Australia each with their own modern fabrication facilities, offering quick and efficient supply of belting, combined with 24 hour on-site service.

We are a partner you can rely upon and we have been servicing Australian manufacturing for over 50 years.

We are apart of the global Ammega Group offering the largest range of belting products with production plants in 25 counties, 180+ Customer Solution Centres and more than 6,000 employees with 25,000 customers globally.

Innovation & Service in Belting

On-site Service

We understand the importance of keeping business operations running smoothly and we know how costly and disruptive downtime can be.

That is why we offer a local service network, available around the clock and able to install and service the entire range of the Ammega Australia product portfolio.

Innovation

Ammega Australia is continuously developing to meet new challenges:

- Higher operating speeds and temperatures
- Increased cleanability and durability
- Safer and more hygienic belts
- Reduced energy consumption
- Lower total cost of ownership

Customisation

Our belting solutions are customised to meet customer requirements. We support our customers with project and belt analysis, belt selection, belt calculation and tests and of course installation.

24/7 Service

In addition, we ship most orders directly from our extensive stocks. If requested, we can even dispatch orders on the same day by express delivery.

YOUR BUSINESS IS OUR BUSINESS

Industries served

From sausage rolls to suitcases, automatic doors and your E-commerce orders, almost every product is conveyed or driven by our belts at some point during its life cycle.

Ammega Australia products are at home in nearly every industry, often in critical applications. Through our unique combination of experience, market expertise and engineering know-how, we are able to provide the right belting solutions for the majority of industrial sectors and applications, including:

- Food
- Carton, Paper, Packaging materials
- Logistics
- Wood
- Metal
- Sugar
- Sports & Leisure
- Energy

... and many more
