企业简介 COMPANY PROFILE

中创磷脂是专业从事高端磷脂产品生产、研发及成套浓缩磷脂工程设计、制造、安装调试的股份制公司。公司占地面积120亩，总规划建筑面积达5万平方米，是年产3.9万吨高端系列磷脂的研发生产基地。项目分两期建设，目前，公司建成并已正式投产的高端磷脂项目包括：年产3000吨、年产10000吨两条透明磷脂生产线，年产500吨粉末磷脂生产线，年产500吨高纯度卵磷脂（PC）生产线，年总产能达1.4万吨。二期项目计划在1~3年内新增建设包括2万吨透明磷脂生产线，4000吨粉末磷脂生产线，1000吨高纯度卵磷脂（PC）生产线。

企业现为“国家高新技术企业”，建有2000平米高端系列磷脂研发中心，拥有各项国家专利几十余项，公司高端磷脂系列产品更是被评为省级高新技术产品。

“中创”品牌高端系列磷脂自研发生产至今，产品供不应求，客户遍及大江南北，产品现已出口至澳洲、日本、新加坡、土耳其、加拿大、东南亚及南美等国家。

ZC Lecithin professionally engages in high-end lecithin products, researching and developing full sets of lecithin engineering-design, facilities production and installation testing.The company covers an area of 120 areas, the total planning area is 50 thousand square meters, it is an annual output of 39,000 tons of high-end series of lecithin R & D and production base. The project will be built in two phases, at present, the company has been put into operation and has been put into operation high-end lecithin projects include: an annual output of 3,000 tons; an annual output of 10,000 tons of two transparent lecithin production line; an annual output of 500 tons of powder lecithin production line、Lecithin (PC) production line, the total capacity of 14,000 tons. The second phase is planned for one to three years add to including the construction of 20,000 tons of transparent lecithin production line, 4,000 tons of powder lecithin production line, 1,000 tons of high purity lecithin (PC) production line.

Enterprises has been awarded as "national high-tech enterprises", has been built a 2,000 square meters high-end series of lecithin research and development centers, with more than dozens of national patents, the company's high-end lecithin products also been rated as provincial high-tech products.

"ZC" brand high-end series of lecithins has been developed since the development and production, the products are in short supply, customers throughout the north and south ,including Australia, Japan, Singapore, Turkey, Canada, Southeast Asia and South America and other countries.

磷脂
Lecithin

应用范围 Application

类别 Items	应用范围 Application	主要功能 Function
通用磷脂 Standard Lecithin	烘焙食品 Bakery	改进分散性、物料均匀混合、减少粘性 Better dispersion, mixing and blending, reduce viscosity.
	巧克力、糖果 Chocolate、Candy	降低粘度、操作方便、更好的均匀稳定、延长保质期 lower viscosity, easy to process, non-sticky surface, good shelf life
	婴儿食品 Infant formula	补充脑发育最旺盛时期的必需营养物质、促进神经细胞生长 Supply essential nutrient for brain growth, promote nerve cells growth
	肉制品（罐头、冷冻、火腿肠） Meat product (can/freeze/sausage)	防止脂肪分离和渗析、降低脂肪覆盖 Prevent fat separation and dialysis, reduce fat covering
改性磷脂 Modified Lecithin	饮料、乳制品 Beverage、Dairy products	改善乳化性、分散性和润湿性，丰富的营养补充 Improved emulsification, dispersion and wettability
	人造奶油、起酥油 Margarine、Shortening	更好的乳化分散性、可塑性、吸水性和防喷溅 Better emulsifying and dispersion.
胶囊磷脂 Capsule Lecithin	保健品 Health food	健脑益智、调节血脂、保护肝脏 Nourish brain, regulate blood lipid, protect liver
粉末磷脂 Powder Lecithin	食品、保健品 Food and Health food	优良的流动性和分散性。磷脂含量高、营养性强 Good flowability and dispersibility,nutrition supplyment
卵磷脂 Phosphatidylcholine	保健品、药品原料 Raw material for health food and pharmaceuticals	健脑、护肝、降血脂 Nourish the brain, protect liver, reduce blood fat
改性磷脂 Modified Lecithin	涂料、油漆、色浆 Coating/Paint	良好的抗氧化剂和增色剂，促进分散、稳定 Good antioxidant and toner, promote dispersion, stability
	纺织、皮革 Textile、Leather	改善成品光泽度、柔软性和手感 Improve smoothness and gloss of final product
	护肤品 Skin care product	改善乳化性、泡沫稳定性、分散性和抗氧化性 Improved emulsifying, dispersion, antioxidant, and foam stability
	农药 Pesticide	增强活性成分的功效，降低活性成分用量 Better active ingredients,reduce the dosage of active ingredients

包装
PACKING

系列产品
Series Products

透明磷脂 Transparent Lecithin

气味纯正、杂质含量低（小于0.1%），透明流体。
Pure smell, Low impurity content (less than 0.1%), Transparent fluid

粉末(颗粒)磷脂 Powder Granule Lecithin

浅黄色，纯度高，流动性好，易分散于水，便于使用。
Light yellow, rich source of phospholipids, improved flowability, even blending and mixing, disperse quickly in water, easy-to-use, directly as a nutritional supplement.

卵磷脂 Phosphatidylcholine

为磷脂酰胆碱的富集产物，可直接作为营养补充品，易分散于水，溶于乙醇。
A rich source of phosphatidylcholine, disperse quickly in water, directly as a nutritional supplement, soluble in ethanol

包装规格：Packing

净重20公斤/桶，200公斤/桶，1000公斤/桶，
20公斤/箱。
Net weight: 20Kg/drum,200Kg/drum,1000Kg/drum, 20kg/box

贮存方法及保质期：Storage

密封储运、避光、防潮、阴凉干燥处保存(保存温度在15-25℃)保质期为18个月
Sealed shipment. Keeps away from light, and store in dry, cool palce (storage temperate 15–25℃). Shelf life of this product is minimum 18 months when stored in the original container.

执行标准：Execution standard

中华人民共和国食品安全国家标准《食品添加剂 磷脂》(GB1886、358)《食品添加剂 改性大豆磷脂》(GB 1886.238)、《食品添加剂 酶解大豆磷脂》(GB 30607)

National Food Safety Standard《Food Additives Phospholipid 》(GB 1886、358)《(Food Additives Modifed soybean phospholipid》(GB 1886.238)、《Food Additives Enzymatically decomposed soybean》(GB 30607)
