

河北祈强金属制品有限公司

Hebei Qiqiang Metal Products Co., Ltd.

Hebei Qiqiang Metal Products Co., Ltd. is one of the most professional R&D and production enterprises in the field of good processing machines in China. Our company is mainly engaged in bone saw machine, meat grinder, meat mixer, two-in-one meat grinding and mixing machine, poultry separator, hydraulic enema machine, vacuum packaging machine and other processing machines. These machines developed by the company are mostly made of stainless steel 304 material, in line with international food hygiene requirements. Widely used in large and medium-sized aquatic products processing enterprises and meat processing enterprises. Most of the company's machines can provide CE certification. The structure of the motor and drive machine is arranged accurately and reasonably, with good waterproof performance and long service life. The saw blade adopts imported Japan saw blade, which is sharp and durable. Hebei Qiqiang Metal Products Co., Ltd. adheres to the consistent pragmatic, rigorous and innovative service concept. Provide users with pertinent and constructive advice. We will combine the current market environment and the actual situation of users, analyze, exchange and discuss the problems of technology, quality and service, maximize cost savings, produce products that satisfy customers, and perfect after-sales service is our eternal pursuit. Working with you is our greatest desire. Hebei Qiqiang Metal Products Co., Ltd. is willing to make friends with the world, work together and seek common development.
