

安徽乐岁新材料有限公司

Anhui Lesui New Material Co.,LTD

One-stop packing solution supplier

- Top food Packaging Enterprise in China
- Top Fruit & Vegetable Packaging Brand
- Based in China, Service Global

1.Company profile

2.Products & Services

3.CPET & rPET products

**4.Thermoforming film
performance**

PART 01

Company profile

Company Profile

Set up in 2010

- **With more than 710,000 square feet**
- **Output more than 6100*40HQ**
- **Output value is over 90 million US dollars**
- **Production centre: 2 production bases in Chuzhou city, Anhui province ; Pinghu city, Zhejiang province; base in Thailand is under construction**
- **Sales Center and Logistics Center: Shanghai, Chengdu, Beijing, Wuhan, Chuzhou, Guangzhou**

Main Equipment

First-class production line

- 10 raw material machines
- 15 KIEFEL full auto production machine lines.
- 20 Advanced machine lines.
- 30 Semi auto machine lines.
- 50 cutting machines, 10 cutting hole machines .

High-standard production environment

- 100,000 class dust-free workshop.
- FSSC22000

Systems & Certifications

FSSC22000

Foreign Companies and Clients

Enterprise's core competence

R&D Innovation Competitiveness

- New samples development ability:
- 20+ designers team
- 3-5 days for new samples.
- 40+ patents per year
- Individual molds workshop

Enterprise's core competence

Quality & Safety Competitiveness

- QC Dept, 20+ guys IQC, IPQC, OQC, QE, QA & other positions;
- Quality Certificates:BRCS(A), FSSC22000,FDA, WCA, ISO
- Strictly quality control systems
- Internal
- Third party
- High standard Lab

Cost competitiveness

- Advanced managment system
- Raw material workshop
- Advanced machine
- New technology
- Mass orders
- Near seaport

PART 02

Products & Services

Main Products

Fruit &
vegetable box

PET

- High transparent
- Eco-friendly recyclable material

Fresh meat
box

PP

- Extending food shelf life
- Refrigerated and freezable

Lunch box

PP/OPS

- Exquisite and environment-friendly
- Easy carrying

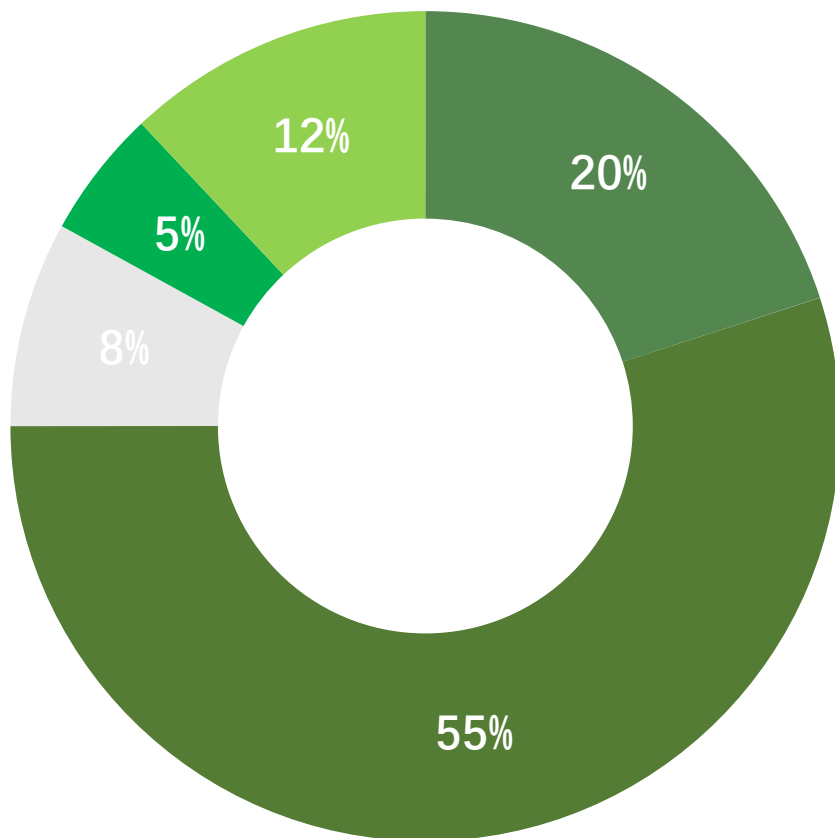

Pastry box

PET

- High transparency
- Excellent display
- Aesthetically pleasing

Products series share

-  **pastry packaging: 20%**
 - PET/PP packaging box
-  **fruit & vegetable packaging: 55%**
 - All series Fruit & Vegetable extract solutions
-  **lunch box packaging: 8%**
 - PP/PLA eco-friendly premium customized lunch food packaging container
-  **matching paper packaging: 5%**
 - Colorful carton + paper bag + paper knife and fork
-  **fresh meat & frozen packaging: 12%**
 - Fresh meat tray+MAP+VSP solution

High Barrier Modified Atmosphere + Vacuum Packaging Solution

Case: Pre-meal solution

Case: Lunch food takeaway solution

PART 03

Advanced CPET & rPET technology and products

Introduction of food grade CPET

- CPET is a crystalline PET made by adding pure PET resin to polymerized crystallized masterbatch. After a special process, it becomes a special material that can withstand low temperature of -40°C and high temperature of 220°C .
- Products made of CPET materials can be heated directly in the oven.

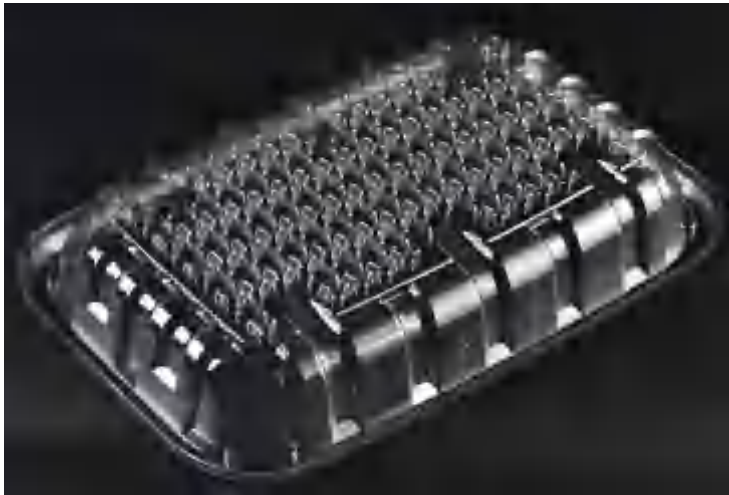

Density	1.38 g/cm ³
Hardness	Soft
Toughness	Good
Transparency	common
virulence	environmental and non-poisonous
Color	Colorful
Working temperature	$-40-220^{\circ}\text{C}$
Using Scope	Hot food, cold food
Degradable	Non-degradeable

CPET Baking Products

Introduction of food grade rPET

- RPET (Recycled PET) is a recycled PET material obtained by recycling PET products or containers used by consumers.

Density	1.38 g/cm ³
Hardness	Soft
Toughness	Good
Transparency	common
virulence	environmental & non-toxic
Color	Colorful
Using temperature	-10-40°C
Using Scope	Hot food, cold food
Degradable	Non-degradeable

rPET Fruits & Vegetables Products

rPET Pastry Products

Company's rPET product application cases

Mars Wrigley China

The first packaging containing **100% rPET** was launched in the Chinese market - chocolate packaging, Snickers, M&M'S, plan to reduce use of virgin plastic by **300 tons** per year.

European customer

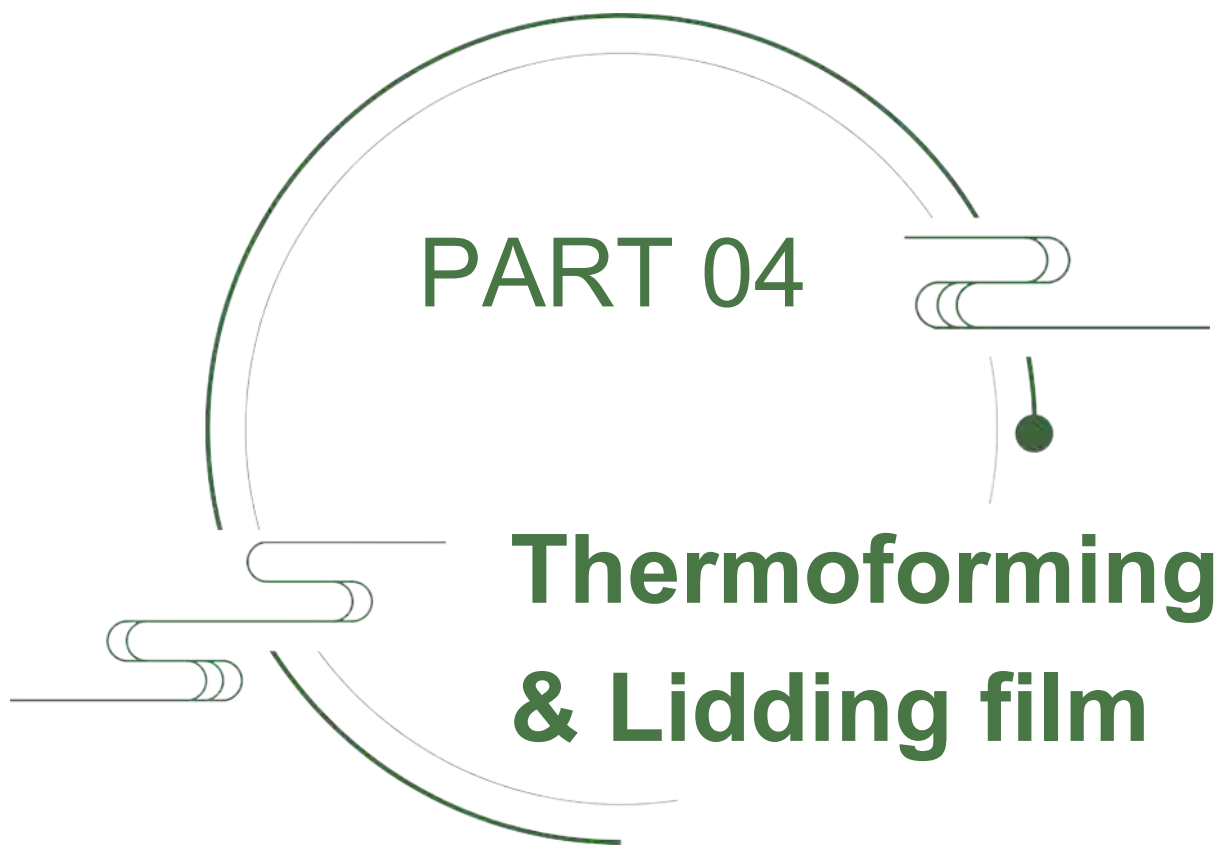

Our company's products currently sold to European countries use **rPET** materials, and the products are mainly used to store **sushi**.

North American customer

Our company now sells products to North American countries, and its main customers are concentrated **in the United States and Canada**.

PART 04

Thermoforming film & Lidding film

Thermoforming film has superior stretching property, can be customized in different shape & thickness

PET/PE film

- high tear
- puncture resistance

- optimum elasticity
- not easy to be pierced

PET/EVOH/PE film

- highly glossy
- purely transparent

Lidding film suitable for meat, fish, seafood, cheese, poultry and salad packaging

➤ Sealed performance

Thank you for watching !
