

# OUR FOOD & BEVERAGE SOLUTIONS

## WRAPPING EQUIPMENT

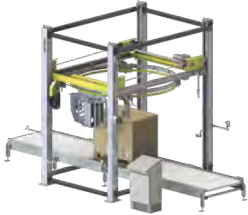

Ensure proper load containment, maximize productivity, and lower film usage with flexible and intuitive wrapping solutions

### Automatic Rotary Ring Stretch Wrappers

#### Octopus® Compact Series

Compact design requiring less floor space than traditional wrappers.

#### Octopus® B Series

Low to medium capacity model for various load dimensions.

#### Octopus® S and T Series

Medium and high-capacity models for various load dimensions.

#### Octopus® Prestige™

High flexibility and speed that meets market demands.

### Automatic Stretch Hooders

#### Power Flex T1

Simple and user-friendly for uniform pallet size in a small footprint

up to 100 loads per hour

#### Power Flex TL

High throughput for multiple pallet sizes with minor variations in size

up to 200 loads per hour

#### Multi FlexX1

Adaptable for multiple load sizes with hydraulically or electrically-operated stretch frame

up to 200 loads per hour

#### Multi FlexXL

High flexibility in load sizes and wrapping patterns for large format pallets

up to 150 loads per hour

## STRAPPING EQUIPMENT

Our product selection for Food & Beverage industries

### Auto / Semi Automatic strapping machines

#### SGP Series

Automatic and Semi-automatic plastic strapping machines with many options such as double coils

up to 45 bundles per minute

#### SGP Inox

SGP range in stainless steel version. Corrosion resistant washdown

IP 56 rating

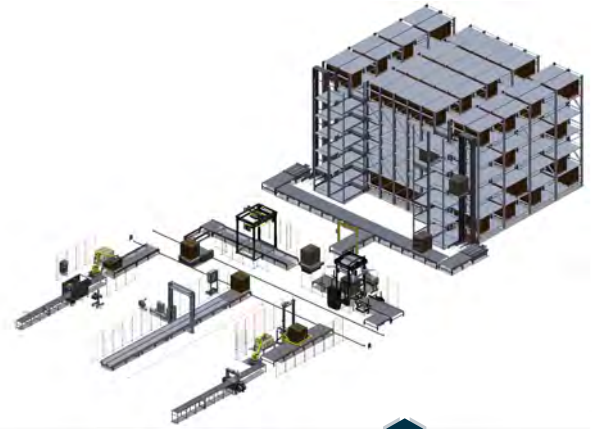

# OUR FOOD & BEVERAGE SOLUTIONS

## INTEGRATION AND AUTOMATION SOLUTIONS

Tailored automation solutions that integrate seamlessly for end-of-line efficiency and productivity

From Strapping, Stretch Wrapping, Stretch Hooding, Case Packag-ing, Stapling, to Warehouse Automation, Signode's broad product portfolio covers various packaging technologies to cover end-of-line packaging requirements.

### Warehouse Automation

#### Automated Storage and Retrieval System (ASRS)

Move pallets in and out of storage positions quickly and automatically. This high density solution for "lights out" warehousing provides increased throughput and flexibility with limitless configurations.

## CONSUMABLES AND PROTECTIVE PACKAGING

Ensure load stabilization and brand integrity with a broad spectrum of packaging consumables

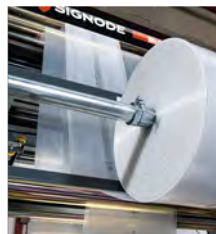

### Stretch and Oriented Films

High-performance hand and machine film for a wide range of equipment and applications

### Stretch Hood Films

Virgin and PCR quality stretch hood film for multiple product applications

### Sheets, Frames & Layer pads

Increase product stabilization and reduce load migration, while meeting unitized load parameters

### PP Strap

Polypropylene strap with virgin, sustainable PCR or Bio based content

### PET Strap

Flat and embossed Polyester strap for tools and machine use

### Paper Strap

Sustainable paper strap made of certified FSC sources and recyclable with paper waste

### Edge Protection

Rigid or flexible corners providing stability and puncture resistance to protect loads in transit
