

AUTOMATED PALLETISING SOLUTIONS

Smart palletising for safe, simple, and stress-free operation. Designed to grow with your business, delivering peace of mind and a fast return on investment.

Manual Palletising is Costing You More Than You Think

The Problem With Manual Palletising:

- Physically demanding and injury-prone
- Difficult to staff and retain operators
- Throughput limited by labour availability
- Inconsistent stacking and rework due to errors

A single WorkCover claim can exceed the cost of automation

Every hour you palletise manually – you're paying more than automation costs

The Key Benefits of Our Automated Palletising Solutions

- ✓ Operator friendly controls
- ✓ No robotics experience required
- ✓ Multiple carton formats and pallet patterns
- ✓ Reduces labour and safety risk
- ✓ Consistent high-throughput palletising
- ✓ High-payload palletising
- ✓ Ongoing local support when you need it
- ✓ Delivers consistent performance every shift – even late on a Friday afternoon
