

HydroHeat is a 100% Australian-owned specialist in commercial hydronic HVAC, steam boilers, commercial hot water, heat pumps, chillers, and plant-room systems. Established in 1990, HydroHeat supports commercial projects through design consultation, plant-room review, equipment supply, prefabricated skids, commissioning, installer training, spare parts, and warranty-backed technical support. With operations in Melbourne and Sydney and a trade-focused national support model, HydroHeat is best positioned as a partner for efficient, compliant, serviceable heating and hot-water infrastructure.
